Instruction Sheet for Completing ZH 09 Progress Report

Progress Reports ask for statistical information from each team working on Anti Human Trafficking Task Force Recovery Act Program cases so it is important that each of these teams have a common definition for terms used in the reports. It is also important for teams to receive additional clarification related to the reporting requirements contained in the progress reports. The following information should promote a shared understanding among team members so that all teams report similar data.

DEFINITIONS:

Disrupted:

Impeding the normal and effective operation of the targeted organization.

Dismantled:

Destruction of the organization's leadership, financial base, and supply network such that the organization is incapable of operating and/or reconstituting itself.

Operations:

This includes, but is not limited to: Setting up Craig's List "out call" dates, where the john/offender responds to an undercover task force member at a location such as a vehicle, hotel, or apartment; utilizing an undercover task force member on the street posing as a prostitute; or, conducting a raid on a massage parlor.

"Community" and "Country of Origin" relate to a domestic vs. international offender.

Comprehensive Services:

An array of services that can be offered to a human trafficking victim that will address needs identified at the time of intake and service planning (a list of services is located in the progress report, and is NOT limited to those items).

Cal EMA recognizes that there is a disparity with regard to the focus of the existing nine Human Trafficking Task Forces in the state of California.
