

MEDICAL TRAINING CENTER PROGRAM
Component: 40.20.161, 40.20.451

PROGRAM OVERVIEW

Per California Penal Code §13823.93, the Medical Training Center (EM) Program funds one grant recipient to provide training for forensic medical examiners in cases of sexual assault, child sexual abuse, domestic violence, elder/dependent adult abuse, and child physical abuse/neglect. This Program accomplishes this in two ways: by developing resources and structures to support sexual assault professionals, and by conducting trainings to increase practitioners' skills and ability to provide examinations that will be credible in court.

The goal is to ensure exams are conducted in a standardized, consistent and qualified manner throughout California. Specialized trainings are conducted on medical quality assurance, forensic photography, telemedicine/teleconferencing, and expert witness testimony. Training is also provided for court personnel and a telecommunications network for expert consultation in various areas of the State.

The Medical Training Center Program also addresses Sexual Assault Response Teams (SART) including: developing and/or improving current SART efforts; ensuring the availability of effective, comprehensive SARTs for sexual assault victims; identifying key SART procedures and protocols; and coordinating SART policy needs.

The Grant Subaward (EM14041059) has been augmented with FFY15 funds extended from September 30, 2015, to September 30, 2016, in order to merge an objective from the FF14031059 Grant Subaward and to revise/add new objectives.

FUNDS AWARDED

<u>Fiscal Year</u>	<u>Types of Funding</u>	<u>Total Funding</u>
FY 2014/15	Violence Against Women Act (VAWA) FFY12	\$ 200,275
