

Handout: Checklist for Integrating People with Disabilities and Others with Access and Functional Needs into Emergency Planning, Response and Recovery

PLANNING

COMMUNITY PARTNERS	S	PS	NS	COMMENTS
Qualified representatives from Access and Functional Needs communities				
Systems to coordinate, expand, strengthen, maximize & sustain partnerships				
Discuss expertise, skill sets, resources, response & reimbursement agreements				
Define FAST expectations, accountability, request and response				
MOUs with detailed responsibilities				
Meet communication, evacuation, transportation, access & health needs				
Contract with & employ organizations that represent diverse access and functional needs populations				
Recruit & include qualified representatives from diverse access and functional needs populations				
CERTs recruit & accommodate people with access and functional needs				
Update training to incorporate access and functional needs content				
Stockpile DME and CMS				

S = SUFFICIENT

- completely addressed
- formal mechanisms

PS = PARTIALLY SUFFICIENT

- partially addressed or informally addressed
- under development
- being updated

NS = NOT SUFFICIENT

- not addressed

This checklist is adapted from a more extensive checklist developed by June Isaacson Kailes, Associate Director, Center for Disability and Health Policy, Western University of Health Sciences, Pomona, California. The link to the complete checklist is:
