

First Responder Operations

First Responder Operations: This course trains first responders at the operations level to respond in a defensive manner to releases or potential releases of hazardous substances as part of an initial response. This content focuses on tactics a responder can use to protect persons, the environment, and property from the effects of a hazardous materials release.

This course combines lecture, group activities, exercises and a written exam.

This program meets OSHA requirements and NFPA recommendations for training at the First Responder Operations level.

Course Length: 16 hours

Course Code: FRO

CA Approval: CA-017-RESP
