

Hazardous Materials Technician Module A

Hazardous Materials Technician Module A (HMTA): The Week begins the process of the Technician program. It is an intense, one-week overview of Basic Chemistry, and how that Chemistry effects the Hazardous Materials response. Periodic Table of the Elements forms the foundation for this educational and instructive program. *Lecture only.

Technician Level: Modules A-D - This course is a 160 hour program (given over nonconsecutive training weeks) is designed to provide the requisite knowledge, fundamentals of chemistry and monitoring and manipulative training to prepare trainees for duty on a Hazardous Materials Response Team.

Open to fire service, law enforcement, health, environmental and specific private industry personnel, this course includes class, didactic and hands-on training in real-world scenarios-based experience.

Pre-requisite: First Responder Operations (FRO)

Course Length: 36 hours

Course Code: HMTA

CA-Approval: CA-012-RESP

About CSTI

CSTI has evolved into a statewide enterprise with responsibility for supporting training, exercises and education in a wide variety of public safety areas including but not limited to; emergency management, homeland security, hazardous materials, disaster recovery and crisis communications.
