

## Technician Level: Module C

**Technician Level - Module C (HMTc):** The Week is 'warm-up' for full field operations. Topics including ICS, Medical Monitoring, and Weather are augmented by practical hands-on training.

Use of Chemical Protective Clothing, Breathing Apparatus, and tools used in offensive control are also covered. A challenging 'obstacle course' and functional exercise are included during this training week. Participants must have a certificate of medical clearance on file to continue through this week, due to the nature and demands of the physical training of this week.

**Technician Level - Modules A-D:** This course is a 160 hour program (given over nonconsecutive training weeks) is designed to provide the requisite knowledge, fundamentals of chemistry and monitoring and manipulative training to prepare trainees for duty on a Hazardous Materials Response Team.

Open to fire service, law enforcement, health, environmental and specific private industry personnel, this course includes class, didactic and hands-on training in real-world scenarios-based experience.

**Pre-requisite:** First Responder Operations (FRO)

**Course Length:** 40 hours

**Course Code:** HMTc

**CA-Approval:** CA-013-RESP
