8. Required Registration in the System for Award Management (SAM)

Per 2 CFR §25 Appendix A, the System for Award Management (SAM) is the official U.S. Government system that consolidates the capabilities of CCR/FedReg, ORCA, and EPLS. SAM is part of an overall integrated acquisition environment that brings together different Federal procurement data systems into a unified system, with the intention of reducing duplication and information technology costs, and to help create a more streamlined and integrated Federal acquisition process. Additional information about registration procedures may be found at <https://www.sam.gov/>.

Unless exempted from this requirement under 2 CFR §25.110, the Subrecipient must maintain the information in the SAM until the final financial report required under this subaward is submitted or the Subrecipient receives the final payment, whichever is later. This requires the Subrecipient to review and update the information at least annually after the initial registration, and more frequently if required by changes or another subaward term.

If the Subrecipient is authorized to make further subawards under this subaward, it must:

- Notify potential subrecipients that no entity may receive a subaward from you unless the entity has provided its unique entity identifier to you.
- Not make a subaward to an entity unless the entity has provided its unique entity identifier to you.

9. Government-wide Debarment and Suspension (Non-procurement)

In accordance with 2 CFR §200.212 the Subrecipient and contractors are subject to the non-procurement debarment and suspension regulations implementing Executive Orders 12549 and 12689, and 2 CFR §180. These regulations restrict awards, subawards, and contracts with certain parties that are debarred, suspended, or otherwise excluded from or ineligible for participation in Federal assistance programs or activities.

The Subrecipient must also comply with 2 CFR §1200, “Non-procurement Suspension and Debarment,” which generally prohibits entities that have been debarred, suspended, or voluntarily excluded from participating in Federal non-procurement transactions either through primary or lower-tier covered transactions.

Before entering into a further subaward or contract under the subgrant, the Subrecipient must verify that the entity/individual is not excluded or disqualified from participation in Federal non-procurement or procurement programs. This can be done by:

- Performing a search (previously performed in the EPLS by checking for Active

Exclusions on the SAM website located at <https://www.sam.gov/>;

- Collecting a certification from that entity/individual; or
- Adding a clause or condition to the covered transaction with that entity/individual.

The Subrecipient must include a Term or Condition in lower-tier transaction requiring lower-tier participants to comply with subpart C of the OMB guidelines in 2 CFR §180, as supplemented by 2 CFR §1200.

The Subrecipient must inform Cal OES when they suspend or debar a contractor or Subrecipient.

10. Financial Management and Internal Controls

The Subrecipient's financial management system, including records documenting compliance with Federal statutes, regulations, and the Terms and Conditions of the subaward, must be sufficient to permit the preparation of reports required by general and program-specific Terms and Conditions, and the tracing of funds to a level of expenditures adequate to establish that such funds have been used according to the Federal statutes, regulations, and the Terms and Conditions of the subaward.

In accordance with 2 CFR §200.302 - .303, the Subrecipient's financial management system must provide for the following:

- Identification, in its accounts, of all Federal awards received and expended and the Federal programs under which they were received. Federal program and Federal award identification must include, as applicable, the CFDA title and number, Federal award identification number and year, name of the Federal agency, and name of the pass-through entity, if any.
- Accurate, current, and complete disclosure of the financial results of each Federal award or program in accordance with the reporting requirements set forth in §§200.327 Financial reporting and 200.328 Monitoring and reporting program performance. If a Federal awarding agency requires reporting on an accrual basis from a recipient that maintains its records on other than an accrual basis, the recipient must not be required to establish an accrual accounting system. This recipient may develop accrual data for its reports on the basis of an analysis of the documentation on hand. Similarly, a pass-through entity must not require a subrecipient to establish an accrual accounting system and must allow the subrecipient to develop accrual data for its reports on the basis of an analysis of the documentation on hand.
- Records that identify adequately the source and application of funds for federally-funded activities. These records must contain information pertaining to Federal awards, authorizations, obligations, unobligated balances, assets, expenditures, income and interest and be supported by source documentation.
- Effective control over, and accountability for, all funds, property, and other assets. The

non-Federal entity must adequately safeguard all assets and assure that they are used solely for authorized purposes. See §200.303 Internal controls.

- Comparison of expenditures with budget amounts for each Federal award.

The Subrecipient must maintain financial management systems that meet the standards for fund control and accountability as established in 2 CFR §200.302.

Payments for allowable costs may be withheld during the period of performance if:

- The Subrecipient has failed to comply with the project objectives, Federal statutes, regulations, or the Terms and Conditions of the Subaward.

While separate depository accounts for grant funds are not required, the Subrecipient must be able to account for the receipt, obligation and expenditure of funds.

- The Subrecipient is delinquent in submitting required reports or responding to findings and corrective actions developed during the course of monitoring activities.

Each payment request must be made electronically by email, unless a document requiring an original signature (i.e., new Designation Statement or Amendment Form) is included. Only requests using the most current Cal OES Reimbursement Request form will be accepted. Reimbursement requests may be submitted monthly, but not less than quarterly and must include a report of progress on the project, such as with a Quarterly Performance Report.

All approved project activities must be completed and paid for by the last day of the Subrecipient performance period. Allowable costs that were not claimed in the quarter in which they occurred can be included in a later Reimbursement Request, but must be identified as previously unclaimed.

In accordance with 2 CFR §200.308, Subrecipients may incur project costs within 90 calendar days before the subaward. Expenses more than 90 calendar days pre-subaward require prior approval of the Federal awarding agency. All costs incurred before Cal OES makes the subaward are at the Subrecipient's risk (i.e., Cal OES is under no obligation to reimburse such costs if for any reason the Subrecipient does not receive a subaward or if the subaward is less than anticipated and inadequate to cover such costs).

14. Flow-Down of Requirements under Subawards

The requirements of this subaward that apply to the Subrecipient also apply to their Subrecipients, i.e., entities that are carrying out part of the substantive programmatic activity, unless an exception is specified.

In making subawards under the subaward, the Subrecipient must apply the Federal administrative requirements, cost principles and audit requirements contained in 2 CFR §200.

The Subrecipient is responsible for any commitments or expenditures it incurs in excess of the funds provided by this subaward.

16. Financial Reporting Requirements

Subrecipients are required to submit a Reimbursement Request at least quarterly that indicates the status of project expenditures. Subrecipients who are not substantially on track with the approved

See Section 22 of these Terms and Conditions for more information on subaward changes.

Subrecipients must submit Quarterly Performance Reports to Cal OES until all grant activities are completed or for the duration of the grant performance period. The reports must include the status of all approved activities, and should align with the Work Schedule and Deliverables contained in the Grant Application package. The reports are due as follows:

These documents will be reviewed during the course of monitoring, including site visits and desk reviews. Cal OES reserves the right to request supporting documentation upon receipt of performance reports. Subrecipients must comply with these requests in a timely manner to avoid delays in the associated reimbursement payment processing.

Final Report

The Subrecipient must notify Cal OES, in writing, when all approved grant activities have been completed and paid for, in the form of a Quarterly Performance Report. Documentation showing

Requests for extension and effect of late reporting

A request for an extension of the due date for a Quarterly Performance Report must be made in writing by the Subrecipient's Authorized Agent to Cal OES no later than 30 days before the end of the reporting quarter. The request must include the reason for the request and the requested due date. Approval is not automatic.

As required by 2 CFR §200.501, Subrecipients that expend \$750,000 or more in Federal awards during the Subrecipient entity's fiscal year must have a single or program-specific audit conducted for that year in accordance with the provisions of the regulation. Subrecipients are expected to review and fully comply with the audit requirements formerly located at OMB Circular A-133 and now located at 2 CFR §200 – Subpart F.

27. Record Retention and Access to Records

Subrecipients must comply with the records retention requirements in 2 CFR §200.333 and the provisions in 2 CFR §200.336 for access to records.

Site visits, desk audits, or other reviews

Cal OES, through its staff or authorized representatives, may make site visits to review project accomplishments, management control systems and provide guidance as may be requested or required. If a site visit is made on the premises of the Subrecipient, the Subrecipient must provide reasonable facilities and assistance to Cal OES representatives in the performance of their duties. Site visits and evaluations will be coordinated with the Subrecipient so to not unduly delay work activity under the subaward or other activities of the Subrecipient.

Cal OES, through its authorized representatives, may request a desk audit or other monitoring review to assess project accomplishments, management control systems and provide guidance as may be requested or required. If a desk audit or other monitoring review is conducted, the Subrecipient is required to provide all records requested by Cal OES. Desk audits and monitoring reviews will be coordinated with the Subrecipient so to not unduly delay work activity under the subaward or other activities of the Subrecipient.

If Cal OES requires access to the records of a Subrecipient or contractor under the grant, whether as part of a site visit or for another type of review, Cal OES will coordinate the request with the Subrecipient.

28. Seat Belt Use Policies and Programs

In accordance with Executive Order 13043, the Subrecipient is encouraged to adopt on-the-job seat belt use policies and programs for its employees when operating government-owned,

company-owned, rented, or personally-owned vehicles. The National Highway Traffic Safety Administration (NHTSA) is responsible for providing leadership and guidance in support of this presidential initiative. For information on how to implement such a program or for statistics on the potential benefits and cost-savings to your company or organization, please visit the Buckle up America section on NHTSA's website at www.nhtsa.dot.gov.

Additional resources are available from the Network of Employers for Traffic Safety (NETS), a public- private partnership headquartered in Washington, D.C. dedicated to improving the traffic safety practices of employers and employees. These efforts may include conducting education, awareness, and other outreach for employees about the safety risks associated with texting while driving and should encourage voluntary compliance with the entity's text messaging policy while off duty.

30. Information Collection

Under the Paperwork Reduction Act (PRA), if a Subrecipient collects the same information from 10 or more respondents as part of carrying out this award, the Subrecipient is prohibited from representing to its respondents that information is being collected for, or in association with, the federal government unless the Subrecipient is conducting the collection of information at the specific request of the agency; or the terms and conditions of the grant require specific approval by the agency of the collection of information or collection procedures. In those cases, the OMB PRA clearance procedures contained in 5 CFR 1320 must be followed.
