

**GRANT MANAGEMENT MEMORANDUM
GMM 2020-13**

Date: June 18, 2020

To: Eligible School Communications Interoperability Grant Program Applicants

From: Cal OES Grants Management

Subject: Fiscal Year (FY) 2019 School Communications Interoperability Grant Program – Status Update

Due to the historic revenue shortfall and anticipated increased costs related to the COVID-19 pandemic, the May Revision proposes to revert the unencumbered balances associated with five one-time General Fund legislative investments provided in the 2019 Budget Act, including the FY 2019 School Communications Interoperability Grant Program. While the budget process is still in the deliberative process, Cal OES will not be issuing Grant Subawards for the FY 2019 School Communications Interoperability Grant Program at this time. Cal OES will notify you once the status of funding for this program has been determined. In addition, Cal OES will provide further guidance for any other modification that may be necessary.
