

**VIOLENCE AGAINST WOMEN VERTICAL PROSECUTION PROGRAM**  
**Component: 40.20.161**

**PROGRAM OVERVIEW**

Cal EMA initiated the Violence Against Women Vertical Prosecution Program in 2002 funded with federal Violence Against Women Act (VAWA) S\*T\*O\*P Formula Block Grant Program funds. The purpose of this program is to fund specialized units in prosecutors' offices in California to vertically prosecute crimes predominately against women, including sexual assault, domestic violence, stalking, and dating violence. The program allows for the victim to be male. Vertical prosecution has shown to:

- Improve conviction rates;
- Reduce victim trauma; and,
- Provide more consistent and appropriate sentencing.

There are four mandatory objectives for the projects funded under this program:

- Increase conviction rates of violent crimes against women as measured by the total number of cases projected to be assigned/accepted by the unit.
- Achieve vertical prosecution standards as measured by the number of cases to be prosecuted in each of the categories: True, Major Stage, and Unit.
- Reduce specialized caseloads by a minimum of one-third (excluding warrant cases) as measured by the comparison to the non unit caseloads.
- Ensure minimization of trauma to victims of specified crimes as measured in advocate employee direct services or referrals to local victim service agencies.
