2011

Background & Purpose

Pursuant to the California Government Code, Chapter 7 of Division 1 of Title 2, “The Emergency Services Act”, the California Governor’s Office of Emergency Services (CalOES), Law Enforcement Division manages and maintains the State of California Search and Rescue Mutual Aid Program. This includes the publication of plans and model documents pertaining to Search and Rescue Mutual Aid.

In order to refine the State’s Search and Rescue Mutual Aid Program, the CalOES Law Enforcement Division assembled California’s 58 County Sheriffs’ Search and Rescue Coordinators, as well as all of California’s State and Federal SAR Cooperators. This group of interested agencies is called the “State Sheriffs’ Search and Rescue Coordinators”. The main objective of this group is to collectively review and address statewide SAR issues to improve the effectiveness and efficiency of the State’s SAR Mutual Aid Program.

One issue identified was the lack of a “Model SAR Team Organization Policy and Procedure” that Sheriff’s Departments could use as a base for organizing their Search and Rescue Teams. This need was specifically for those teams that are affiliates of the Sheriff’s Department, governed by an elected board, yet serve at the discretion of the Sheriff.

This collective effort of the State Sheriff’s SAR Coordinators took many months of work to assemble and produce his suitable “Model” made available to any Sheriff’s Office or SAR Team in need of such guidance. This “Model” document in no way establishes a state standard and is not intended as a standard. It is solely offered as a simple base plate or template tool for an agency to modify for their own use.

Thanks goes out to the Santa Barbara County Sheriff’s Department for their Team Policy and Procedure document which served as the baseline for this Model. Thanks also goes to the Mono County Sheriff’s Department for taking the lead and Chairing the committee to complete this document to the satisfaction of the State Sheriff’s SAR Coordinators.

This model document was extensively reviewed and approved by the State Sheriff’s SAR Coordinators at one of their quarterly sessions and is made available in editable “Word” format by CalOES Law Enforcement Division.

Introduction

The Sheriff’s Department Search and Rescue Teams are structured as non-profit organizations working for and with the Sheriff’s Department. The team may be governed by an elected Board, who serve at the direction of the Sheriff, typically through the Sheriff’s designated “SAR Coordinator”.

When responding to incidents, team trainings, and participating in any and all team sanctioned functions, the team functions as a unit of the sheriff’s department, operating under the jurisdiction of the Sheriff. Team members are considered non-paid, at will civilian employees of the department.
