Daily Focus - Wildfire Stats

California Statewide Fire Summary
Tuesday, October 6, 2020

Today 16,400+ firefighters continue to battle 22 major wildfires/complexes and 1 additional extended attack wildfire. Wildfires in total have consumed over 4 million acres.

Resource Breakdown:
State, local, tribal and federal resources assigned to active wildfires

1,675+ fire engines
107 assigned aircraft
306 fire crews
226 bulldozers
373 watertenders
Daily Focus- COVID-19

Slide taken from the October 6th virtual briefing, presented by Dr. Mark Ghaly, Secretary of the California Health and Human Services Agency. On this call he provided an update on #COVID19 in California.

Today, California counties can further enhance their effort to combat COVID-19 with the use of the Health Equity Metric, which is a part of the state’s Blueprint for a Safer Economy.

This equity metric is designed to help counties reduce, prevent and mitigate the spread of COVID-19 among Californians who have been disproportionately impacted by this pandemic.

Factoring in the new equity metric, see what color your county is by clicking here.
Daily Focus- Cal OES

Cal OES continues its mission alongside partner agencies to support local communities in response to the #COVID19 pandemic.
COVID-19 at a Glance

California's positivity rate is a key indicator of community spread. The 7-day positivity rate is 2.6% and the 14-day positivity rate is 2.7%. For skilled nursing facility data, visit: Skilled Nursing Facilities: COVID-19

As of October 5, local health departments have reported 40,142 confirmed positive cases in health care workers and 190 deaths statewide.

Each week, CDPH updates the number of cases of Multisystem Inflammatory Syndrome in Children (MIS-C) reported in the state. As of October 2, 104 cases
of MIS-C have been reported statewide. To protect patient confidentiality in counties with fewer than 11 cases, we are not providing total counts at this time.

*Parents should be aware of the signs and symptoms of MIS-C including fever that does not go away, abdominal pain, vomiting, diarrhea, neck pain, rash, bloodshot eyes or feeling tired. Contact your child’s doctor immediately if your child has these symptoms. Early diagnosis and treatment of patients is critical to preventing long-term complications.

The latest data is linked at https://covid19.ca.gov/ and features hospital data, county maps, cases by county and distributed PPE.

Racial Demographics – A More Complete Picture

- Health outcomes are affected by forces including structural racism, poverty and the disproportionate prevalence of underlying conditions such as asthma and heart disease among Latinos and Black Californians.

- Overall, for adults 18 and older, Latinos and African Americans are dying at disproportionately higher levels. The proportion of COVID-19 deaths in Latinos and African Americans is more than 1.3 times their population representation across all adult age categories.

- Latinos, African Americans, Native Hawaiians and Pacific Islanders are dying at disproportionately higher levels. More males are dying from COVID-19 than females, in line with national trends. More information is available at COVID-19 Race and Ethnicity Data.
Nationwide COVID-19 Numbers (reported by CDC from previous day)
  o As of 10/06 there have been:
    ▪ **209,560** total deaths, with **361** new deaths reported.
    ▪ **7,436,278** total positive cases, with **39,548** new cases reported from the prior day.
    ▪ The CDC COVID-19 Data Tracker has a new look and location to make the data easier to find and use. All previous data remains and will be updated on the same schedule.
    ▪ [https://covid.cdc.gov/covid-data-tracker/#cases](https://covid.cdc.gov/covid-data-tracker/#cases)

State Owned Ventilators
  o As of 10/06

  Ventilators:
    ▪ Available for use: **9,506**
    ▪ Assigned: **161**

</table>

- If you are impacted by the on-going wildfires in Butte, Lake, Monterey, Napa, San Mateo, San Diego, Santa Cruz, Solano, Sonoma, and Yolo counties, you may be eligible for assistance from the FEMA.

- Grants may help eligible survivors with financial assistance that includes rent, home repair, home replacement and other disaster-related needs such as childcare, medical and dental expenses.

- Do not wait to register at [www.disasterassistance.gov](http://www.disasterassistance.gov).

- People who suffered losses from the fires should contact their insurance companies first. Insurance delivers the majority of financial help in disasters. For losses not covered by insurance, people can register for
disaster assistance in three ways: online through disasterassistance.gov, by using the FEMA App or by calling 800-621-3362.

- If local governments have specific questions about COVID-19 recovery please to send them to disasterrecovery@caloes.ca.gov.

Local Assistance Centers

- In the ongoing response and recovery mission to support wildfire survivors impacted by the August 2020 fire siege across California, the California Governor’s Office of Emergency Services (Cal OES) in joint support from local, state and federal agencies are announcing multiple Local Assistance Centers (LAC) opening to wildfire survivors.

- The Local Assistance Center is a one-stop-shop with critical government services for residents who have been impacted by the fires. Replace lost or destroyed vital documents (ID, financial information, etc.) and get connected with support services.

Locations and hours * Information reported from previous night.

Great Plates Delivered: Home Meals for Seniors

Helps seniors and other adults at high risk from COVID-19 to stay home and stay healthy by delivering three nutritious meals a day.

Provides essential economic stimulus to local businesses struggling to stay afloat during the COVID-19 crisis.

Restaurants and food providers interested in participating can fill out this form: https://state-of-california-agency.forms.fm/great-plates-delivered-food-provider-interest-form/forms/7917 (Click the “START” button)
• Due to recent 30-day extension granted by FEMA, the program will now continue through October 9th.

• Food provider meals must meet the following nutritional requirements:
  
  o Breakfast: low in sodium, no sugary drinks (<24 grams /8 oz. and of fruit juice, must be only 100 percent fruit juice allowed.)
  
  o Lunch and dinner: a piece of fresh fruit or vegetable on each dish, and low in sodium, no sugary drinks (<24 grams /8 oz. and of fruit juice, must be only 100 percent fruit juice allowed.

LISTOS California

• The Listos California Emergency Preparedness Campaign is successfully reaching over 1 million vulnerable Californians with the information they need to prepare for natural disasters-and the COVID-19 pandemic.

• All elected officials are invited to serve as an important megaphone for the 5-steps of preparedness. We have prepared a dropbox here filled with information you can share with your constituents via social media, newsletters and/or visits with your local community. Please review this Table of Contents here to better understand how to leverage these well-designed materials.

• Help ensure that all members of our communities are prepared for COVID-19 and other disasters by sharing the new “Farmworker Initiative” section of the Listos California website. This initiative includes a Disaster Guide for Farmworkers. Written materials in Spanish and audio files in Indigenous Languages, Punjabi, Hmong and Spanish can be found here.

• Please contact our Listos California Co-Chairs, Karen Baker or Justin Knighten should you need any assistance.
  
  o Justin.Knighten@caloes.ca.gov       o Karen.Baker@caloes.ca.gov
Contact Tracing
To develop contact tracing capabilities, the State has:

- Developed a data management platform in collaboration with our county partners and has offered the tool free-of-charge to all local public health departments;
- Developed a virtual training academy in partnership with academic partnership, including UCSF and UCLA, to scale our training capabilities across all counties free-of-charge;
- Redirected 3,600 state staff to augment the local contact tracing workforce of over 7,000 staff; and
- Developed a public awareness campaign, California Connected, in partnership with philanthropy to educate the public on the importance of contact tracing.

CALCONNECT DATA SYSTEM
The data management platform (CalCONNECT) went live with basic functionality as a pilot with one local health department on May 13. In the subsequent 10 weeks, 39 additional local health departments (LHD) have been added to CalCONNECT. As a result of not having all LHDs fully on the system yet, the system does not capture data for all contact tracing that is occurring in each jurisdiction or in California.

TRAINING FOR STATE AND LOCAL STAFF
In partnership with UCSF and UCLA, the state implemented the Virtual Training Academy to support the training of state and local staff to become case investigators and contact tracers. More than 7500 state and local staff have participated to date in the State’s UC VTA training for contact tracing or case investigation.

LHDs may choose to send their staff through the VTA or may pursue other options for training their staff. In addition, LHDs had seasoned staff that did not need to go through new training for COVID19 contact tracing.
DEPLOYMENT OF STATE WORKFORCE

At the inception of this program, the state offered to redirect state staff as contact tracers free-of-charge to local health departments. With the surge of new cases, local health departments are now in need of case investigators and so we are adjusting our program to train state staff to help to fill that gap for this more advanced role. To date, we have deployed more than 1300 state staff to 20 local health departments and we continue to deploy more staff each week.
As of 10/06, the following counties have transition to a new tier:

- New counties in Red (Substantial): Merced, Ventura, Yuba
- New counties in Orange (Moderate): Inyo
- New counties in Yellow (Minimal): Humboldt, Plumas, Siskiyou, Trinity
- New county moving back to Purple (Widespread): Tehama
- New county moving back to Red (Substantial): Shasta

Current tier assignments as 10/06:
• All data and tier assignments are based on results from week ending September 19, 2020. See how tiers are assigned and change, as well as county historical data (California Blueprint Data Chart) at the California Department of Public Health guidance page.

• Every county in California is assigned to a tier based on its test positivity and adjusted case rate. At a minimum, counties must remain in a tier for at least 3 weeks before moving forward.

• Data is reviewed weekly and tiers are updated on Tuesdays. To move forward, a county must meet the next tier’s criteria for two consecutive weeks. If a county’s metrics worsen for two consecutive weeks, it will be assigned a more restrictive tier.

• What happened to the County monitoring List?

  • The Blueprint for a Safer Economy replaces the County Data Monitoring List for determining what business can and cannot open.

  • So why change? We learned a lot over the first several months of the pandemic about COVID-19 and how it spreads. For example, we know how much safer outdoor activities are than indoor ones and that it’s critical everyone wears a mask to limit the spread of the disease. This blueprint incorporates what we’ve learned.

  • The Blueprint for a Safer Economy is the next evolution of our response. We’ve revised the criteria and the time between changing tiers. We’ve made it easy for counties to see how changes affect the disease’s trajectory and for businesses and customers to plan ahead. And we’ve given Californians one place to look up whether a business or activity is allowed near them.

  • The previous July 13th order was replaced with a new order.
• On October 6, California counties can further enhance their effort to combat COVID-19 with the use of the Health Equity Metric, which is a part of the state’s Blueprint for a Safer Economy. This equity metric is designed to help counties reduce, prevent and mitigate the spread of COVID-19 among Californians who have been disproportionately impacted by this pandemic.

**Actions Taken by the State and Federal Government**

• **September 28.** Governor Newsom issued an emergency proclamation for the counties of Napa, Sonoma and Shasta due to the Glass and Zogg fires.

The Governor also sent a letter to the President requesting a Presidential Major Disaster Declaration to assist state and local wildfire response and recovery efforts in the counties of Fresno, Los Angeles, Madera, Mendocino, San Bernardino, San Diego and Siskiyou.

Additionally, Nevada and Santa Clara counties have been added the August Presidential Major Disaster Declaration. Both counties are eligible for public assistance, including direct federal assistance. Santa Clara county is eligible for Individual Assistance.

• **September 25.** Governor Newsom today issued an emergency proclamation for the counties of Del Norte, Los Angeles and Mendocino to bolster the response to various fires which have burned thousands of acres, destroyed homes and caused the evacuation of residents.

The Governor also signed an executive order to streamline recovery efforts in communities across the state impacted by devastating fires. The order extends the state’s prohibition on price gouging in impacted counties through March 25, 2021; extends the deadline for impacted residents to file a claim for property tax postponement; and directs the Franchise Tax Board, Board of Equalization, Department of Tax and Fee Administration and the Office of Tax Appeals to provide extensions to impacted residents and businesses for filing, audits, billing, notices and assessments, among other provisions.

• **September 23.** Governor Newsom signed an executive order to extend authorization for local governments to halt evictions for commercial renters
impacted by the COVID-19 pandemic through March 31, 2021, and address a variety of issues in response to the pandemic.

- **September 17**, Governor Newsom [signed](#) legislation to protect California’s workforce amid the COVID-19 Pandemic.

- **September 10**, Governor Newsom [declared](#) State of Emergency in Siskiyou County Due to Fires.

- **September 9**, Governor Newsom [signed](#) bills to support small businesses grappling with the impacts of the COVID-19 Pandemic, in order to bolster economic [recovery](#).

- **September 8**, Governor Newsom [unveiled a partnership](#) with Sesame Workshop for Back-to-School PSAs on how kids can stay safe during COVID-19. A PSA with Elmo and his dad are available in English and Spanish.

- **September 6**, Governor Gavin Newsom [declared a State of Emergency](#) in Fresno, Madera, Mariposa, San Bernardino, and San Diego Counties due to fire.

- **September 3**, Governor Gavin Newsom [signed](#) an [executive order](#) extending consumer protections against price gouging through March 4, 2021 as California continues to respond to the COVID-19 pandemic. The Governor also [signed](#) an [emergency proclamation](#) to free up additional energy capacity amid extreme temperatures across California.

- **September 2**, Governor Newsom [Announced](#) Housing Is Key Campaign to Inform Californians About State’s New Tenant and Landlord Protections. Under new law, no tenant can be evicted before February 1, 2021 as a result of rent owed due to a COVID-19 related hardship.
How People Can Protect Themselves:
We are all in this together. We are working rapidly to keep our state healthy. Every person has a role to play. Your actions save lives.

DO:

- Stay home
- Avoid people outside your household
- Wash hands with soap and water for at least 20 seconds
- Wearing a cloth face mask when out in public
- Cover your cough or sneeze
- Frequently clean and disinfect touched objects and surfaces
- Maintain physical distance of six feet whenever outside of the house

DON'T

- Leave the house except for essential activities
- Shake hands
- Touch your face
- Go to the doctor if you are not sick
- Stockpile masks or gloves

- It is also important that anyone experiencing symptoms of COVID-19, call their health care provider first before seeking medical care so that appropriate precautions can be taken.
- Stay away from work, school or other people if you become sick with respiratory symptoms like fever and cough.
Mental Health

- The stress we are all feeling right now triggers the biological stress hormone. Stress shows up in individuals differently.
- Call your doctor or mental health professional if you have concerns.
- 16 hotlines offering emotional support for a variety of situations and other helpful mental health resources available here: https://covid19.ca.gov/resources-for-emotional-support-and-well-being/

About the Tests:

- There have been 15,430,421 tests conducted in California. This represents an increase of 128,740 over the prior 24-hour reporting period. These numbers include data from commercial, private and academic labs, including Quest, LabCorp, Kaiser, University of California and Stanford, and the 25 state and county health labs currently testing. You can find a testing site in your area on the main CA COVID-19 website: covid19.ca.gov.

- CDPH has posted a new dashboard reporting how long California patients are waiting for COVID-19 test results. California has worked to reduce testing turnaround times in recent weeks to help curb the spread of the virus. During the week of September 20 to September 26, the average time patients waited for test results was 1.2 days. During this same time period, 69 percent of patients received test results in 1 day and 92 percent received them within two days. The testing turnaround time dashboard is updated weekly.

- The California Department of Public Health released updated testing guidance on July 14 that focuses on testing hospitalized individuals with signs or symptoms of COVID-19 and people being tested as part of the investigation and management of outbreaks, including contact tracing. The testing guidance also prioritizes individuals who have COVID-19
symptoms and individuals without symptoms who fall into high risk categories.

- The California Department of Public Health launched an interactive website to help Californians quickly search testing sites by location and schedule an appointment. The testing locator website features community testing locations which are open to Californians who meet current testing guidelines.
Small Business Administration, Disaster Assistance

- Virtual Business Recovery Center and Virtual Disaster Loan Outreach Center is now open:
  
  Mondays – Fridays
  9:00 a.m. – 6:00 p.m.
  FOCWAAssistance@sba.gov
  (916) 735-1500

- These services are only available for the California disaster declaration as a result of the wildfires that began Aug. 14, 2020, and not for COVID-19-related assistance.

- California Small Business Loan Guarantee Program (via IBank) is making available $50 million in state funding, providing potential capital for individuals who do not qualify for federal funds.
  - Small Businesses located in California with 1-750 employees that have been negatively impacted or experienced disruption by COVID-19 and nonprofits are eligible.
- U.S. Small Business Administration (SBA) has declared all California counties eligible for the Economic Injury Disasters Loans.
- U.S. Small Business announced that agricultural businesses are now eligible for SBA’s Economic Injury Disaster Loan (EIDL) and EIDL Advance programs.
- This SBA declaration makes Economic Injury Disaster Loans available to impacted small businesses, small agricultural cooperatives, small businesses engaged in aquaculture, and private non-profit organizations.
• SBA loans can be approved up to $2 million but are limited to the economic injury determined by SBA. These loans are intended to assist through the disaster recovery period.
  
  o In response to the COVID-19 pandemic, small business owners in all U.S. states, Washington D.C., and territories are eligible to apply for an Economic Injury Disaster Loan advance of up to $10,000. This advance will provide economic relief to businesses that are currently experiencing a temporary loss of revenue. Funds will be made available within three days of a successful application. This loan advance will not have to be repaid.
  
  o This advance may be available even if your EIDL application was declined or is still pending and will be forgiven. If you wish to apply for the Advance on your EIDL, please visit https://covid19relief.sba.gov/#/ as soon as possible to fill out a new, streamlined application.

• U.S. Small Business Administration announced changes to help borrowers still paying back SBA loans from previous disasters. By making this change, deferments through December 31, 2020, will be automatic. Now, borrowers of home and business disaster loans do not have to contact SBA to request deferment.

• Information on these and other programs can be found at: https://covid19.ca.gov/business-and-employers/
