Daily Focus – July 4th Safety Tips
As firework stands open across California, keep in mind these important safety tips to ensure you have a happy and safe holiday weekend!

4TH of July weekend celebration water safety tips
The California Governor’s Office of Emergency Services (Cal OES) reminds Californians to be prepared, remember this safety tips and enjoy this 4th of July weekend celebration.

Safety tips for this year’s boating and water season: read here
Daily Focus – Preparedness
Cal OES Awards First-Ever Resiliency Funding to Disaster Vulnerable Communities

- The $4.5 million is part of Prepare California ‘Jumpstart’ Program investing in local infrastructure improvements
Continuing its efforts to build more resilient communities in areas of the state most susceptible to natural disasters, the California Governor’s Office of Emergency Services (Cal OES) today announced the first round of awardees for the first-in-the-nation Prepare California Program.

In total, Cal OES awarded nearly $4.5 million to six applicants through the ‘Jumpstart’ portion of the Prepare California Program. Ranging from cities and counties to Tribal Governments and private non-profits situated all over the state, this funding will be used to invest in infrastructure improvements designed to protect people and property.

“We are proud of the work being done to ensure the state helps communities prepare before the next emergency,” said Mark Ghilarducci, Cal OES Director. “We hope over time that these local investments will safeguard communities and their infrastructure from natural disasters.”

Launched in January, this groundbreaking program leverages funds approved in Governor Gavin Newsom’s 2021-22 State Budget aimed at reducing long-term risks of disasters, such as flooding, earthquakes, wildfires, landslides, or dam failure, in communities that are considered socially vulnerable and have a high hazard risk.

Designed to unlock federal matching funds for improvement projects that vulnerable communities would otherwise be unable to access, there are two types of grant funding available through Prepare California, with a total of $100 million available.

- $15 million in state funding is dedicated to helping eligible communities jumpstart their development and implementation of resilience planning.
- $85 million is earmarked for communities applying for the federal Hazard Grant Mitigation Program and is intended to cover the required local cost share.

The state identified these disaster vulnerable communities by prioritizing California census tracts according to their estimated hazard exposures and social vulnerability. Hazard exposure is based on the State Hazard Mitigation Plan which includes an analysis of several datasets related to wildfire, flood, earthquake, drought, and heat wave frequencies. Social vulnerability is based on the CDC Social Vulnerability Index.

Daily Focus – Covid-19
Free at-home COVID tests are now available for people who are blind or have low vision.

The tests work with a Bluetooth-enabled smartphone and app to give users audible instructions and test results. Orders will ship via USPS.
COVID-19 at a Glance

As of 7/1/22

- There have been 77,630,160 total vaccines administered. 84.0% of the eligible population (5+) has been vaccinated with at least one dose. 35,219 people are receiving a COVID-19 vaccination per day (average daily dose count over 7 days).

- California has 9,431,299 confirmed cases to date. Today’s average case count is 14,768 (average daily case count over 7 days).

- There have been 91,701 COVID-19 deaths since the start of the pandemic. COVID-19 claims the lives of 16 Californians each day (average daily death count over 7 days).

- Positivity Rate for California: California’s positivity rate is a key indicator of community spread. The 7-day positivity rate is 14.8%. For county level data visit the state dashboard. Cases are increasing statewide, largely among unvaccinated populations. See the data for vaccinated and unvaccinated cases.

- There are 3,467 hospitalizations statewide. There are 372 ICU patients statewide. (Note: As of January 5, 2022, hospitalized and ICU patients only reflect confirmed COVID-19 cases).

- For skilled nursing facility data, visit: Skilled Nursing Facilities: COVID-19

For more COVID-19 data provided by the CDC, click here.

As of June 14, there have been 1000 cases of Multisystem Inflammatory Syndrome in Children (MIS-C) reported statewide. MIS-C is a rare inflammatory condition associated with COVID-19 that can damage multiple organ systems. MIS-C can require hospitalization and be life threatening.

About The Tests
There have been 175,395,301 tests conducted in California. During the week of June 5 to June 11, the average time patients waited for test results was 0.8 day. During this same time period, 90% of patients received test results in one day and 97% received them within two days.

Masking
Latest updates on mask guidance: https://covid19.ca.gov/masks-and-ppe/ or check out CDPH’s Face Covering FAQ here. These are the statewide guidelines for masks. Your local area may have more. Check your area’s COVID-19 website.

The Cal OES Office of Private Sector / NGO Coordination’s N95 Mask Program for businesses ended on July 31st, 2021. This program was able to distribute over 6.2 million N95 masks for unvaccinated workers. The goal of this program was to help ease the burden for California businesses by providing a one month supply of N95 masks for unvaccinated workers in order to comply with the California Occupational Safety and Health Standards Board’s Emergency Temporary Standards released on June 17th. The new Emergency Temporary Standards require employers to provide N95 masks to unvaccinated workers upon the worker’s request. Moving forward, Cal OES has partnered with a non-profit organization called PPE Unite to help distribute N95 masks to businesses throughout the state. PPE Unite will be holding mask distribution drives at various to-be-announced locations throughout the state. Interested businesses are encouraged to visit www.PPEUnite.org to sign up for future distribution dates.
Tracking Variants
Multiple variants of the virus that causes COVID-19 have been identified globally during the COVID-19 pandemic. These genetic mutations are expected, and some emerge and then disappear, while others persist or become common. Most variants do not have a meaningful impact. Public health becomes concerned about a variant when it affects COVID-19 transmission, severity, testing, treatment or vaccine effectiveness. Get more information on the variants CDPH is currently monitoring.

Omicron Variant
Overall, clinical and wastewater data indicate that Omicron cases are present in most regions of the state indicating that there is likely community transmission. Mutations consistent with Omicron variant have been detected at increasing proportions in wastewater in multiple regions throughout California where wastewater surveillance for SARS-CoV-2 is conducted. At least three health systems in California have reported approximately 50-70% of COVID-19 cases are consistent with Omicron (full sequencing results are pending). This is consistent with CDC reports of estimates of at least 70% of cases nationally. Additionally, genetic sequencing does not represent real-time data, as sequencing generally occurs several days or more after initial tests are positive for COVID-19.

CDPH issued a statement on the Omicron variant on November 28, 2021. The recent emergence of the Omicron variant further emphasizes the importance of getting a vaccine, booster and taking prevention efforts needed to protect against COVID-19. This number will be updated weekly with the other variants California is currently monitoring on this webpage. For more information about the variant, see the Omicron variant fact sheet.

Get tested
Locate confidential COVID-19 testing near you by clicking here. Appointment may be required.

Contact Tracing
It’s when health workers notify you that you’ve been in close contact with an infected person. They will tell you how to quarantine or isolate and get tested. Public health departments have used contact tracing for decades to fight infectious disease.

Launched on May 22, 2020, California Connected is the state’s comprehensive and confidential contract tracing program. This critical program is administration-led with the support of CDPH, local health departments (LHD), the UC system, UCSF, and UCLA.
“Vaccinate ALL 58” - COVID-19 Vaccine Distribution

*California Volunteers, Office of the Governor Launches Volunteer Recruitment Campaign to Accelerate COVID-19 Vaccinations and Slow the Spread. Interested Volunteers can visit MyTurnVolunteer.ca.gov.

Distribution of the COVID-19 vaccine in California began on December 14, 2020 with the launch of the “Vaccinate ALL 58” vaccine distribution campaign.

The COVID-19 vaccine is here. And everyone in California will get a turn.

Safe, free, and effective COVID-19 vaccines are now available to everyone age 12 and up. Let’s end this pandemic. Check for available appointments and book your vaccination as soon as you can. Find a COVID-19 Vaccination Appointment at myturn.ca.gov. Answer a few questions, choose a location, then select a date & time. If no appointments are available in your area, register and you’ll be notified when more appointments open up. The consent of a parent or legal guardian may be needed for those between the ages of 12 and 17 to receive a vaccination. Visit Vaccinate All 58 to learn more about the safe and effective vaccines available.

**Having trouble with My Turn? Don't have an email address or smartphone?**

Call the CA COVID-19 Hotline at 1-833-422-4255 for assistance.

Available Monday - Friday 8AM-8PM, and Saturday-Sunday 8AM-5PM

Learn more about national vaccine efforts [here](#).
Partially-vaccinated people are those receiving only one dose of the Pfizer or Moderna vaccine. Fully-vaccinated people are those who received two doses of the Pfizer or Moderna vaccines or the Janssen vaccine.

**California:**

Once a week, the federal government announces anticipated allocation figures for each state. It can take a week or longer between when doses are allocated by the federal government to when they arrive at public health offices or providers and are ready for administration. Learn more about California vaccine distribution [here](#).

**Vaccine Social Media:**

Visit the [COVID-19 Response Toolkit](#) and the [CDPH Back to School toolkit](#) to find images and videos you can post on social media. The VaccinateALL58 Trust and Safety Team asks that you be on the lookout for any conflicting information concerning COVID-19 vaccines, particularly any attempts to sell or forge COVID-19 vaccine credentials. If you encounter this, please send it to the Rumors Inbox at [rumors@cdph.ca.gov](mailto:rumors@cdph.ca.gov).
Funeral Assistance

If you answered yes to all three questions, you may qualify for COVID-19 Funeral Assistance. Call FEMA at (844) 684-6333. Phone opens Monday through Friday, 6 a.m. to 6 p.m. PT. Multilingual services available. When calling, please have available:

- Your social security number
- The deceased individual’s
- Information about any funeral or date of birth and social security burial insurance policies
- Your date of birth number (if applicable)
- Information about other funeral
- Your mailing address and phone
- Location where the deceased assistance already received number individual died

CA COVID-19 Rent Relief

The CA COVID-19 Rent Relief program offers financial assistance to income-eligible renters and their landlords impacted by COVID-19. The program pays 100% of unpaid rents and utilities and can assist with prospective payments too. Eligible households must be at or below 80% Area Median Income. There is a screening tool on the application portal to assist applicants with determining their eligibility.

Tenants and landlords can apply by visiting HousingIsKey.com

2021 Wildfire Response & Recovery Update

Disaster Assistance

Insurance provides the primary financial source for disaster recovery for renters, homeowners and businesses. Survivors that suffered damage or loss from the wildfires are encouraged to contact their insurance company or agent. FEMA, the U.S. Small Business Administration or other federal disaster assistance will help survivors start their recovery, but it will not pay for all their impacts. The best way to apply is through disasterassistance.gov. Survivors may also call (800) 621-3362 (also for 711 & VRS) or TTY 1-800-462-7585 to apply for federal assistance.

The U.S. Small Business Administration (SBA) is offering low-interest disaster loans to non-farm businesses of all sizes, private nonprofits, homeowners and renters in the counties of Alpine, Amador, El Dorado, Placer and Sacramento who suffered losses caused by the Caldor Fire.

Individuals and Families:
Homeowners: up to $200,000 to repair or replace real estate damage and up to $40,000 to replace personal property.
Renters: up to $40,000 to repair or replace personal property.

Businesses:
Property Damage: up to $2,000,000 to repair or replace real estate, machinery and equipment, inventory and other assets that were damaged or destroyed (available to businesses of any size and private, non-profit organizations).

Economic Injury: only for small businesses and most private non-profit organizations suffering adverse financial impacts of the disaster (with or without property loss), up to $2,000,000 for working capital to help pay obligations until normal operations resume. For additional assistance, SBA has established a Virtual Disaster Loan Outreach Center that is open Mondays – Fridays, 8 am to 8 pm ET. You can contact an SBA customer service representative via email at FOCWAssistance@sba.gov or by phone at 800-659-2955. SBA will answer specific questions about how a disaster loan may help each survivor recover from the disaster damage and will provide one-on-one assistance in completing applications for these loans. You can apply online at https://disasterloanassistance.sba.gov.
Debris Removal

- **1,819 properties in 15 counties are participating in the no cost state-managed Program**, which is administered by Cal OES and the California Department of Resources Recycling and Recovery (CalRecycle), in collaboration with county officials.

- Property owners opt into the program by submitting a ROE to their county, which allows the state to begin work on their property and incur no direct costs for the removal of burned metal, concrete, ash and contaminated soil from their properties.

### California’s Consolidated Debris Removal Program Stats as of 7/1

*Updated on Fridays*

Economic Injury Disasters Loans (EIDL):
During the pandemic and the wildfires, all California counties eligible for the EIDL. These loans can be approved up to $2 million but are limited to the economic injury determined by SBA. These loans are intended to assist through the disaster recovery period.

Applicants may qualify if they:

- Are located in a low-income community. The definition of a “low-income community” is defined in section 45D(e) of the Internal Revenue Code. Note that the applicant must be located in a low-income community in order to qualify. Additional details on how SBA will identify low-income communities will be available soon on our Coronavirus Relief Options page; AND

- Can demonstrate more than 30% reduction in revenue during an 8-week period beginning on March 2, 2020, or later. If an applicant meets the low-income community criteria, they will be asked to provide gross monthly revenue (all forms of combined monthly earnings received, such as profits or salaries) to confirm the 30% reduction.

See the Targeted EIDL Advance FAQ document for more information.

California’s Small Business Finance Center (Center) via IBank:
This is a loan guarantee program designed to assist small businesses that experience capital access barriers. The Small Business Loan Guarantee program encourages lenders to provide funds to small businesses to help them grow and prosper.

Who is eligible?
Small Businesses located in California with 1-750 employees that have been negatively impacted or experienced disruption by COVID-19 and nonprofits.

Virtual SBA Support:
Virtual Business Recovery Center and Virtual Disaster Loan Outreach Center is now open Monday through Friday from 9:00 a.m. – 6:00 p.m.

- Email: FOCWAssistance@sba.gov
- Call: (916) 735-1500
**Listos California**

*Listos California* is the state’s emergency preparedness campaign, which builds resiliency in vulnerable communities at high risk for wildfires and other disasters.

**Farmworker Initiative and Disaster Guide:**

Help ensure that all members of our communities are prepared for COVID-19 and other disasters by sharing the new “Farmworker Initiative” section of the Listos California website. This initiative includes a Disaster Guide in English and Spanish to support Farmworkers protect themselves for when disaster hits.

Written materials in Spanish and audio files in Indigenous Languages, Punjabi, Hmong and Spanish can be found [here](#).

**A Resource for Every Situation**

Listos California has free print, online, text message, social media and streaming audio and video resources that you can use and share to promote disaster preparedness in your home and community. [Help yourself to 100+ resources in more than 20 languages](#).
