

POST-DISASTER SAFETY ASSESMENT PROGRAM (SAP) EVALUATOR AND COORDINATOR TRAINING

Is your agency ready to deal with the aftermath of a disaster?

The goal of the Safety Assessment Program (SAP) is to perform safety assessments post-disaster as quickly as possible. This training will incorporate the California Office of Emergency Services (CalOES), SAP training program.

SAP has been used successfully in responding to disasters including the recent CA fires, Northridge, Napa, and San Simeon earthquakes in California, as well as Hurricane Katrina

SAP provides two types of resources: SAP Evaluators, who work in the field performing safety evaluations, and SAP Coordinators, who are local government lead personnel that coordinate the field activities. We propose to conduct both training sessions in one day.

Workshop Benefits:

- Comprehensive overview of Cal-EMA Safety Assessment Program (SAP)
- Learn about Mutual Aid Response and your role
- Study the concept of Emergency Operations
- Explore the criteria for assessing degree of severity of damage in buildings and lifeline systems
- Determine procedures for posting and barricading
- Develop your skills to use FEMA-approved Field Manuals
- Find out about FEMA reimbursement criteria
- Learn the liability protection laws for responders
- Learn to protect your personal safety and experience a full lesson on preparedness

WHO CAN TAKE THE COURSE

Professionally registered engineers, geologists, licensed architects, certified building officials and inspectors, PW inspectors with Division IV certificates will receive a State-issued Cal-EMA ID card and are eligible for reimbursement when deployed.

All others will receive a certificate and be issued an ID card when they obtain credentials.

Location:

Jurupa Community Services District
1201 Harrel Street, Mira Loma, CA 91752

Cost:

Evaluator Class: \$125
Coordinator Class: \$55

Class supplies, lunch, and refreshments will be provide

When:

Evaluator Class
September 19, 2019 • 8:30am - 3pm

Coordinator Class
September 19, 2019 • 3pm-5pm

Please submit the attached registration form to ccontreras@eastvalley.org

POST-DISASTER SAFETY ASSESSMENT PROGRAM (SAP) EVALUATOR AND COORDINATOR TRAINING

Meet your trainers:

Engineering Solutions Services (ESS)

Sudi Shoja, PE, F.ASCE, Certified SAP Trainer

For the past 28 years, Sudi has been responding to earthquake events locally and internationally. She is a certified trainer and presents nationally on emergency-management topics. She is the chair of the EM Committee for various APWA and ASCE chapters and serves on safety councils for school districts and other groups. She is the post-disaster SAP coordinator for ASCE S. California region. She is a former City Engineer and is currently the Principal of Engineering Solutions Services (ESS) that focus on funding and grant writing services for utility and city agencies. She works closely with CalOES on FEMA related grant applications.

Larry Pierce, PE, Certified Evaluator

Larry D. Pierce has more than 40 years of diversified experience in all aspects of planning, design, and construction management, including the management of large multiple construction and consulting contracts on a wide variety of projects such as pump stations, pipelines, reservoirs, municipal, flood control, military facilities, waterfront structures, airfields, airport terminals, building renovations and convention center facilities.
