EXERCISE SUPPORT

The Cal-CSIC, in collaboration with the Cybersecurity and Infrastructure Security Agency (CISA) provides planning and coordination to Table Top and Capture the Flag exercises. Together the Cal-CSIC and CISA inform participants of state Cybersecurity resources to include testing and evaluation of Emergency Support Function (ESF)-18.

HOSTED PARTNER TRAINING

The Cal-CSIC offers live and virtual proprietary and non-proprietary training to state partners on mission requirements for Cybersecurity and IT Staff.

FUTURE TRAINING

CYBER RANGE

Interactive platform for training state partners to improve hands-on cyber skills. The cyber range capabilities will enhance development operations and security posture analysis by replicating networks, systems, tools, and applications.

LEARNING MANAGEMENT SYSTEM

Web based course catalog for foundational, intermediate and advance cybersecurity training which Delivers individual training needs based on the Nation Initiative for Cybersecurity (NICE) workforce framework.

OPERATIONAL TECHNOLOGY LAB

Practical training in Industrial Control Systems (ICS) Red Team operations, focusing on replicating real-world scenarios in a controlled environment.

This includes training on attack tactics, techniques, and procedures (TTPs) that incorporates threat modeling and attack path mapping. Participants learn exploitation tools for capturing network and system telemetry using industry-leading security appliances.
