OFFICE OF POLICY AND ADMINISTRATION OFFICE OF ACCESS AND FUNCTIONAL NEEDS

## California Community Network

The Office of Access and Functional Needs (OAFN) has developed the California Community Network for the purpose of enhancing communication in order to identify needs and locate resources for individuals with access and functional needs impacted by disasters. OAFN utilizes the network to communicate with partner organizations during disasters and recovery.

To include your organization as part of the community network, you must be a direct service provider and willing to provide 24/7 contact information for no less than two staff (one should be in management). Participation in the network is voluntary and participating organizations can use membership to support your administrative needs (i.e. demonstrating partnerships, grant proposals, etc.) We are also in the process of updating our <a href="website">website</a> and appreciate your assistance in keeping information about our partners current.

Please complete the form below and send it to <u>OAFN@caloes.ca.gov</u>. Thank you in advance for your interest in the California Community Network!
