PREFACE

In March 2011, Presidential Policy Directive / PPD-8 National Preparedness was introduced, replacing Homeland Security Presidential Directive HSPD-8. This directive is aimed at strengthening the security and resilience of the United States through systematic preparation for the threats that pose the greatest risk to the security of the Nation, including acts of terrorism, cyber-attacks, pandemics, and catastrophic natural disasters.

The training and exercise program outlined in this plan is intended to assist preparedness partners in meeting their training and exercise objectives. The California Governor's Office of Emergency Services (Cal OES) conducts an annual Integrated Preparedness Planning Workshop (IPPW) to facilitate the coordination of activities across the state. The Cal OES IPPW annual planning cycle includes input and participation from local government partners, Cal OES Directorates, appropriate grant managers, and training and exercise representatives. This Integrated Preparedness Plan (IPP), which is updated on a yearly basis, is the output of that annual workshop.

PPD-8 identifies both a National Preparedness Goal, including the core capabilities necessary for preparedness, and a National Preparedness System to guide activities that will enable the nation to achieve the goal. The system allows the nation to track the progress of our ability to build and improve the capabilities necessary to prevent, protect against, mitigate the effects of, respond to, and recover from those threats that pose the greatest risk to the security of the nation.

PURPOSE

The purpose of this document is to create an Integrated Preparedness Plan (IPP) that addresses our partners' needs as part of a comprehensive State of California Emergency Management Program. This IPP is a compilation of information gathered from agency strategic planning, Threat and Hazard Identification Risk Assessment (THIRA), Stakeholder Preparedness Review (SPR), review of Emergency Management Accreditation Program (EMAP) standards, the State's Hazard Mitigation Plan, and a detailed review of After-Action Reports and Improvement Plans.

The goal of the annual IPP workshop is to ensure agencies that make up our State Emergency Management Program, including those working in the State Operations Center (SOC), are provided with ample training and exercise opportunities that support the program.

The purpose of the IPP is to document an organization's overall training and exercise program priorities for a specific multi-year time. It is a living document that can be updated and refined annually. These priorities are linked to core capabilities, and, if applicable, a rationale based on existing strategic guidance, corrective actions from previous exercises, or other factors.

The IPP lays out a combination of progressively building exercises – along with the associated training requirements – that address the priorities identified in the IPPW. A progressive, multi-year exercise program enables organizations to participate in a series of increasingly complex exercises, with each successive exercise building upon the previous one until mastery is achieved. Further, by including training requirements in the planning process, organizations can address known shortfalls prior to exercising capabilities.

Included in this IPP is a training and exercise schedule, illustrating the proposed activities scheduled for the years 2026-2029.

METHODOLOGY AND TRACKING

The comprehensive training and exercise programs that Cal OES supports encompasses all levels of government, including state, local, tribal, territorial, and federal partners. The trainings and exercises that Cal OES helps host are based on requests from local and county jurisdictions. Local jurisdictions request specific trainings and exercises based on gaps identified in After-Action Reports (AAR) and real-world events. The training courses Cal OES provides are tracked using participant feedback questionnaires to ensure that the course work was valuable and appropriately challenged students. Cal OES exercises are tracked using the Homeland Security Exercise and Evaluation Program (HSEEP) exercise cycle, which helps support continual improvement. AAR and Improvement Plans (IPs) for Cal OES exercises help ensure that lessons learned are shared with the whole community and are given corrective actions that are followed up on by the responsible parties. Cal OES also employs a corrective action program that continually revisits identified corrective actions to help ensure that implementation occurs.

Personnel responsible for implementing corrective actions are asked to ensure that deficiencies identified in the IPP are actively being resolved. These identified deficiencies are prioritized by the parties responsible for their resolution.

PROGRAM PRIORITIES

Cal OES State Level Priorities

From the 2025 Cal OES Stakeholder Preparedness Review

High Priorities:

- Planning
- Public Information and Warning
- Operational Coordination
- Intelligence and Information Sharing
- Cybersecurity
- Threats and Hazards Identification
- Fire Management and Suppression
- Critical Infrastructure; Communications Systems
- Critical Infrastructure; Power Restoration
- Critical Infrastructure; Sanitation
- Critical Infrastructure; Water Treatment and Provision
- Economic Recovery
- Housing

Medium Priorities:

- Forensics and Attribution
- Screening, Search, and Detection
- Physical Protective Measures
- Risk Management for Protection Programs and Activities
- Supply Chain Integrity and Security
- Community Resilience; Communication and Outreach
- Critical Transportation; Evacuation
- Logistics and Supply Chain Management
- Mass Care Services - Relocation Assistance
- Mass Care Services - Sheltering
- Mass Search and Rescue
- On-scene Security, Protection, and Law Enforcement
- Operational Communications
- Situational Assessment
- Health and Social Services

These priorities serve as the core for what the state will seek to achieve in the mission areas of prevention, protection, mitigation, response, and recovery. The priorities represent those of the state and are inclusive of California's implementation of national-level policy and priorities.

PREPAREDNESS PRIORITIES

This multi-year IPP identifies the training and exercises that will help the organization build and sustain the core capabilities needed to address its training and exercise program priorities gathered from the State Hazard Mitigation Plan, the National Preparedness Report, the Integrated Preparedness Planning Workshop, past After-Action Reports (AARs), and Improvement Plans (IPs). The IPP endeavors to address the threats, hazards, and risks identified in the State Hazard Mitigation Plan.

Below are Fiscal Year 2024 and 2025 Emergency Management Performance Grant (EMPG) Program Planning, Training, and Exercise priorities:

- Planning
- Operational Coordination
- Community Resilience

State Preparedness Priorities are inclusive of FEMA's EMPG priorities addressed in Fiscal Year 2024 and 2025

State Preparedness Priorities by Fiscal Year	
1. Operational Coordination	2024 and 2025
2. Planning	2024 and 2025
3. Community Resilience	2024 and 2025

Rationale

Continuing cascading events include but are not limited to numerous wildfires, flooding, earthquakes, and tropical storms. There remains an apparent need for an increase in preparedness relating to these capabilities. During the Stakeholder Preparedness Review (SPR) it was identified that the below capabilities continue to hold gaps that if closed, could aid in creating a more prepared and resilient California.

1. Operational Coordination

Establish and maintain a unified and coordinated operational structure and process that appropriately integrates all critical partners and supports the execution of core capabilities.

2. Planning

Conduct a systematic process engaging the whole community as appropriate in the development of executable strategic, operational, and/or community-based approaches to meet defined objectives.

3. Community Resilience

Enable the recognition, understanding, communication of, and planning for risk, and empower individuals and communities to make informed risk management decisions necessary to adapt to, withstand, and quickly recover from future incidents.

Preparedness Priority Details

Priority 1: Operational Coordination

Corresponding Capabilities:

- Planning
- Public Information and Warning
- Logistics and Supply Chain Management
- Operational Communications
- Economic Recovery

Goal

Within 2 hour(s) of a potential or actual incident, establish and maintain a unified and coordinated operational structure and process across affected jurisdictions and partner organizations involved in incident management. Maintain for six month(s).

Organization Factors

Cal OES Response Regions: Resources have been allocated and hiring activities continue.

Cal OES Headquarters Response: Cal OES hired permanent Incident Support Team (IST) and Incident Management Assistance Team (IMAT) members to lead emergency activations. In addition, three rotating IST teams and the permanent IST meet for regular training/exercises alongside CA Emergency Support Function (ESF) partners.

Equipment Factors

Cal OES Headquarters Response: One of the key goals is to create platforms that are interoperable. When Cal OES contracts for new systems, it tries to be platform agnostic. Cal OES has leaned forward in integrating new technologies for event and activation notifications and platforms for managing events within the state.

Supporting Training Courses:
See APPENDIX A

Supporting Exercises:
See Cal OES Multi-Year Schedule

Priority 2: Planning

Corresponding Capabilities:

- Public Information and Warning
- Logistics and Supply Chain Management
- Operational Communications
- Economic Recovery
- Mass Care

Goal

Every five (5) years, evaluate and update, if necessary, all emergency operation plans that define the roles and responsibilities of partner organizations involved in incident management across jurisdictions affected, and the sequence and scope of tasks needed to prevent, protect, mitigate, respond to, and recover from events.

Planning Factors

The Economic Recovery Support Function (RSF) will develop and integrate potential partner organizations along with subject matter experts to increase recovery collaboration.

The Cal OES Disaster Planning Unit has created an agency-wide Plans Library that includes plan owners and current revision years. Reminders to evaluate plans are generated annually consistent with the Cal OES Document Policy.

Organization Factors

Staffing issues remain a challenge for all jurisdictions, as attrition brings loss of invaluable institutional knowledge. Cal OES, in collaboration with other CA ESF partners, maintains direct coordination in the updating of plans/annexes to ensure a holistic and comprehensive approach to disaster management.

Supporting Training Courses:
See APPENDIX A

Supporting Exercises:
See Cal OES Multi-Year Schedule

Priority 3: Community Resilience

Corresponding Capabilities:

- Planning
- Public Information and Warning
- Infrastructure Systems
- Risk and Disaster Resilience Assessment
- Long Term Vulnerability Reduction

Goal

Every five years, conduct outreach events or activities to increase awareness of locally significant threats and hazards to help the residents be more prepared to prevent, protect against, mitigate, respond to, and recover from those events.

Planning Factors

Building on recent efforts to build community resilience, the Cal OES Crisis Communication Team, in collaboration with Listos California, brought together community-based organizations, local governments, state partners, and other partners. Listos hosted nine Regional Disaster Ready Summits in 2025. These summits seek to grow community understanding of threats and hazards in their areas, connect with local emergency response staff, and develop communication channels to enhance mitigation, response, and recovery efforts.

The Alfred E. Alquist Seismic Safety Commission at Cal OES provides valuable insight and guidance to improve community resiliency and support the state's earthquake preparedness, mitigation, response, and recovery efforts. The Commission continues to recommend earthquake safety programs and support cost-effective partnerships that help reduce earthquake risks and speed recovery.

As part of the state's effort to strengthen community-wide resilience against wildfires, Cal OES has partnered with CAL FIRE to develop a state home hardening initiative to retrofit, harden, and create defensible space for homes at high risk for wildfires. This program, known as the California Wildfire Mitigation Program, provides dedicated retrofit programs for homes at high risk of wildfires, focusing on communities with high social vulnerability and low- and moderate-income households. This program, a first of its kind, is a framework that can be replicated throughout California communities to ensure equitable, inclusive, and accessible assistance to Californians, regardless of the community they call home.

Organization Factors

The California Specialized Training Institute (CSTI) in conjunction with the Cal OES Office of Access and Functional Needs, the Cal OES Recovery Directorate, and other valuable partners, continues to host training opportunities relating to mitigation and recovery. Local, state, and nonprofit partners attend these trainings, which include information about available insurance and grant opportunities that support all those in California.

Supporting Training Courses:

See APPENDIX A

Supporting Exercises:

See Cal OES Multi-Year Schedule

PROGRAM REPORTING

Through monitoring of improvement actions, Cal OES periodically examines capabilities for accuracy and effectiveness to plan and exercise against the threats, hazards, and risks facing our communities, potentially informing future Integrated Preparedness Cycle activities.

Cal OES will perform and continue to improve the following actions as part of a Corrective Action/Improvement Planning Program:

- Compile and record areas for improvement, lessons learned, and potential best practices identified from exercises and real-world incidents.
- Identify which actions are needed to address areas for improvement using the following questions:
 - What changes are needed to plans and procedures?
 - What changes are needed to organizational structures?
 - What changes are needed to equipment or resources?
 - What training can be leveraged or developed to increase knowledge?
- Align actions to capabilities to measure the effects.
- Prioritize and assign corrective actions to one primary partner to the greatest extent possible.

APPENDIX A: COURSE TITLES & ACRONYMS

COURSE PREFIX	COURSE TITLE
AWR-347	CLIMATE ADAPTATION PLANNING FOR EMERGENCY MANAGEMENT
AWR-362	FLOODING HAZARDS: SCIENCE and PREPAREDNESS
AWR-371	ADDRESSING GAPS IN HOUSING DISASTER RECOVERY: PRE-DISASTER PLANNING
AWR-372	ADDRESSING GAPS IN HOUSING DISASTER RECOVERY: POST-DISASTER PLANNING
EMC	EMERGENCY MANAGEMENT CONCEPTS
EMIC	EMERGENCY MANAGEMENT INSTRUCTOR CERTIFICATION
EOCIM	EMERGENCY OPERATIONS CENTER SECTION INTERMEDIATE: MANAGEMENT
EOCIO	EMERGENCY OPERATIONS CENTER SECTION INTERMEDIATE: OPERATIONS
EOCIL	EMERGENCY OPERATIONS CENTER SECTION INTERMEDIATE: LOGISTICS
EOCIP	EMERGENCY OPERATIONS CENTER SECTION INTERMEDIATE: PLANS
EOCIF	EMERGENCY OPERATIONS CENTER SECTION INTERMEDIATE: FINANCE & ADMIN
G141	INSTRUCTIONAL PRESENTATION AND EVALUATION SKILLS
G191	EMERGENCY OPERATIONS CENTER (EOC)/ INCIDENT COMMAND SYSTEM (ICS) INTERFACE
G197	INTEGRATING ACCESS AND FUNCTIONAL NEEDS INTO EMERGENCY MANAGEMENT
G205	RECOVERY FROM DISASTERS: THE LOCAL COMMUNITY ROLE
G235	EMERGENCY PLANNING
G288	LOCAL VOLUNTEER AND DONATIONS MANAGEMENT
G358	EVACUATION AND RE-ENTRY PLANNING
G364	MULTI-HAZARD EMERGENCY PLANNING FOR SCHOOLS
G393	MITIGATION FOR EMERGENCY MANAGERS
G418	MASS CARE-EMERGENCY ASSISTANCE (MC-EA) PLANNING AND OPERATIONS 0
G489	MANAGEMENT OF SPONTANEOUS VOLUNTEERS IN DISASTERS
G557	RAPID NEEDS ASSESSMENT
G611F	EOC SECTION OVERVIEW: FINANCE AND ADMINISTRATION
G611L	EOC SECTION OVERVIEW: LOGISTICS
G606	STANDARDIZED EMERGENCY MANAGEMENT SYSTEM (SEMS) INTRODUCTORY COURSE
G611M	EOC SECTION OVERVIEW: MANAGEMENT

COURSE PREFIX	COURSE TITLE
G611O	EOC SECTION OVERVIEW: OPERATIONS
G611P	EOC SECTION OVERVIEW: PLANNING
G611W	EOC OPERATIONS: WATER/WASTEWATER UTILITIES
G626	EOC ACTION PLANNING
G775	EOC MANAGEMENT AND OPERATIONS
ICS300	INTERMEDIATE ICS FOR EXPANDING INCIDENTS
ICS400	ADVANCED ICS: COMMAND AND GENERAL STAFF-COMPLEX INCIDENTS
ICS402	INCIDENT COMMAND SYSTEM (ICS) OVERVIEW FOR EXECUTIVES AND SENIOR OFFICIALS
IEMC	INTEGRATED EMERGENCY MANAGEMENT COURSE
IPIO	INTERMEDIATE PUBLIC INFORMATION OFFICER
JICC	JOINT INFORMATION CENTER CONCEPTS

APPENDIX B: TRAINING PROGRAM

Enhancing state and local emergency preparedness capabilities is a recognized need. Under the National Preparedness Directorate and Grants Program, allowable training-related costs include establishment, support, conduct, and attendance of training programs specifically identified under the State Homeland Security Program (SHSP), Urban Areas Security Initiative (UASI), Emergency Management Performance Grant (EMPG), and Operation Stonegarden (OPSG) grant programs within existing training academies, universities, or community colleges. The target audience for training courses include emergency prevention, protection, response, and recovery personnel, emergency managers, and public/elected officials in the following disciplines: fire service, law enforcement, emergency management, emergency medical services, hazardous materials, public works, public health, health care, public safety communications, governmental administration, and the private sector.

Grant program funds can often be used to attend these courses or have them delivered in a local area. The grant funds may pay for backfill and/or overtime for the student, travel costs, facilities, deliverables (manuals, books, handouts etc.), and instructor costs. Please refer to the applicable grant guidelines for eligible costs. The FY 2024 DHS assistance programs that leverage and enhance existing training programs listed below:

2025 Homeland Security Grant Programs (HSGP)

- State Homeland Security Program (SHSP)
- Emergency Management Performance Grant (EMPG)
- Urban Area Security Initiative (UASI)
- Operation Stonegarden (OPSG) Program

Emergency Management Preparedness Grant (EMPG)

The Integrated Preparedness Plan is a grant requirement for entities utilizing EMPG funds. The EMPG Program provides federal grants to States to assist State, local, territorial, and tribal governments in preparing for all hazards. EMPG-funded personnel are required to meet specific training and exercise [requirements](#) as follows:

EMPG Training Requirements

- IS – 100 Introduction to Incident Command System
- IS – 120 An Introduction to Exercises
- IS – 200 ICS for Single Resources and Initial Action Incidents
- IS – 230 Fundamentals of Emergency Management
- IS – 235 Emergency Planning
- IS – 240 Leadership and Influence
- IS – 241 Decision Making and Problem Solving
- IS – 242 Effective Communication
- IS – 244 Developing and Managing Volunteers
- IS – 700 National Incident Management System (NIMS) an Introduction
- IS – 800 National Response Framework, An Introduction

Certificates of completion must be maintained for each of these employees. State and local EMPG-funded personnel can access the online training through FEMA's [Independent Study Program](#).

EMPG Exercise Requirements

Participate in no less than two (2) exercises within a 24-month period.

California Specialized Training Institute (CSTI)

Established in 1971, CSTI has delivered highly acclaimed, much needed training to tens of thousands of students. CSTI delivers specialized training throughout California, offering more than a hundred course titles in the areas of emergency management, criminal justice and homeland security, hazardous materials, disaster mitigation, preparedness, response and recovery, and crisis communications.

CSTI delivers training to state and local government agencies, tribal organizations, businesses, non-profit organizations, and numerous other organizations. CSTI offers a variety of training for entry-level, mid-career, senior management, and executive level professionals.

Cal OES CSTI Programs

State Training Operations

The Cal OES CSTI State Training Operations Unit partners with federal, state, and local training providers to ensure broad and equitable access to all-hazards

training for first responders and emergency managers across California. The program strengthens the local delivery of training and coordinates a comprehensive, inclusive statewide training strategy. Training is offered throughout the state to ensure first responders, emergency managers, government leaders, non-governmental partners, and other stakeholders have the knowledge, skills, and abilities needed to perform critical functions during disasters. These efforts directly support the agency's mission to reduce the impacts of disasters on California's communities, property, economy, and environment.

Local, Regional, and Statewide course deliveries are listed in the [State Training Bulletin](#).

CSTI State & Federal Training Coordination Contacts and Resources:

State Training Officer

Tracy Stocks, (916) 845-8487, Tracy.Stocks@caloes.ca.gov

Training Point of Contact

Nina Brunner, (916) 845-8942, Nina.Brunner@caloes.ca.gov

Criminal Justice Program

CSTI provides both classroom and field operations instruction in the areas of law enforcement officer safety, terrorism, and human trafficking awareness.

Contact: Senior Emergency Management Coordinator

Anthony Lukin, Ph.D., (805) 594-2141, Anthony.Lukin@caloes.ca.gov

Emergency Management Program

CSTI provides training in all phases of emergency management and homeland security mission areas including specialized training in crisis communications, exercise design, and emergency planning. The emergency management curriculum covers the full spectrum of threats and hazards including earthquakes, floods, fires, severe weather, tsunamis, transportation incidents, and terrorism.

Contact: Senior Emergency Management Coordinator

Laura Rumpler, (805) 594-2155, Laura.Rumpler@caloes.ca.gov

Fire and Rescue Training Program

CSTI partners with the Cal OES Fire and Rescue Division (Response Operations) to provide various specialized training, including Urban Search and Rescue (US&R), Hazardous Materials, Regional Technical Search Specialist, Regional Task Force Leader, Swiftwater Rescue, California Incident Command Certification System, Strike Team Refresher Training, the Next gen SCOUT Situational Awareness and Collaboration Tool, and Fire Integrated Real-Time Intelligence System (FIRIS) aircraft.

Contact: Senior Coordinator

Deputy Chief Jack Fry, (916) 873-7005, Jack.Fry@caloes.ca.gov

Hazardous Materials Program

CSTI's hazardous materials courses are comprehensive and exceed national training standards in the field. Participants gain valuable experience in both classroom and field operations settings, practicing response capabilities needed for effective and safe response.

Contact: Senior Emergency Management Coordinator
Jonathan (JP) Robles, (805) 594-2148, JPRobles@caloes.ca.gov

Recovery Training Program

CSTI's new Recovery Training Unit is developing and delivering disaster recovery-focused curriculum to ensure local government, individuals, businesses, and other California entities are prepared to navigate the wide variety of federal and state assistance programs offered following a disaster event.

Contact: Program Manager III
John Catching, (916) 845-8204, John.Catching@caloes.ca.gov

State Exercise Operations

The State Exercise Operations Unit is also part of CSTI. Additional details about the team may be found in Appendix C.

How CSTI Training is Delivered

CSTI coordinates training to qualified participants in four principal ways: 1) at the training provider's facility (known as in-residence training, to include the CSTI main campus), 2) at or near the location of the agency that requests the training (known as mobile training), 3) virtual instructor-led, or 4) asynchronous (self-paced) online. The bulk of the training currently coordinated by CSTI is conducted in person at or near the site of the requesting agency. Virtual instructor-led courses are delivered by live instructors on camera through video conferencing, utilizing slide decks, breakout activities, exercises, polling, and other features to provide a comprehensive dynamic environment. Some online training has been added to CSTI's list of training courses. Online training is delivered in an asynchronous format via computer and internet connection and is self-paced. www.csti.org.

Internal Training for Cal OES

To ensure that Cal OES is best prepared to respond to and recover from disasters, all Cal OES staff complete eight baseline emergency management courses. Staff working in mission areas also complete training relevant to their position. Additionally, and in compliance with EMPG requirements, the following courses are offered each year:

- G191 ICS/EOC Interface
- G197 Integrating Access and Functional Needs into Emergency Management
- G205 Disaster Recovery
- G235 Disaster Planning
- G393 Disaster Mitigation
- G557 Rapid Needs Assessment
- G606 Standardized Emergency Management System (SEMS) Introductory Course
- G611 EOC Section / Position Specific Training
- G626 EOC Action Planning
- G775 EOC Management and Operations
- ICS 300 Intermediate Incident Command System for Expanding Incidents
- ICS 400 Advanced Incident Command System for Command and General Staff

Federal Training Providers

The FEMA National Training and Education Division (NTED) manages thirty-one (31) training partners, which have available training courses for state and local first responders that are in various stages of curriculum development and/or course review and approval.

National Preparedness Training:

The National Preparedness Course Catalog, an online searchable catalog featuring a compilation of courses managed by the three primary FEMA training organizations: the Center for Domestic Preparedness (CDP), the National Disaster & Emergency Management University (NDEMU), and the [FEMA | National Training and Education Division \(NTED\)](#). The National Preparedness Course Catalog features a wide range of course topics in multiple delivery modes to meet the increasing training needs of Federal, state, local, territorial, and tribal audiences.

[National Domestic Preparedness Consortium \(NDPC\)](#) is a partnership of several nationally recognized organizations addressing counter-terrorism preparedness needs of the nation's emergency first responders within the context of chemical, biological, radiological, nuclear, explosive WMD hazards, agro-terrorism, and emergency management systems. NDPC reflects the missions of all these organizations with its commitment to provide quality, cost-effective counter-

terrorism training to the nation's emergency responders. The Consortium members are as follows:

- [Center for Domestic Preparedness](#) (CDP)
- [National Center for Biomedical Research and Training – Academy of Counter-Terrorist Education](#) (NCBRT-ACE) at Louisiana State University (LSU):
- The Energetic Materials Research and Testing Center (EMRTC) at [New Mexico Institute of Mining and Technology](#) (NMIMT)
- [U.S. Department of Energy's Counter Terrorism Operations Support](#) (CTOS) at Nevada Test Site (NTS)
- [National Emergency Response and Rescue Training Center](#) (NERRTC) at Texas Engineering Extension Service (TEEX)
- [Security and Emergency Response Training Center](#) (SERTC)
- [National Disaster Preparedness Training Center](#), University of Hawaii (NDPTC)

In addition, the [FEMA National Disaster & Emergency Management University \(NDEMU\)](#), in Emmitsburg, Maryland trains emergency management professionals at all levels of government to prepare for, protect against, respond to, recover from, and mitigate disasters.

How NTED Training is Delivered

Cal OES delivers [National Training and Education Division \(NTED\)](#) courses, through CSTI State Training Operations, to qualified participants in three primary ways: 1) at the training provider's facility (known as in-residence training), 2) at or near the location of the agency that requests the training (known as mobile training), or 3) online.

State Training Providers

Besides managing its own training facilities and curriculum, Cal OES collaborates with nine state training partners. These partners (listed below) are committed to ensuring that all levels of government and public safety personnel are trained and exercised to the highest standards.

APPENDIX C: CSTI STATE EXERCISE OPERATIONS

CSTI State Exercise Operations Unit

The CSTI [State Exercise Operations Unit](#) (Exercise) is responsible for four major programs: The Exercise Support Program, the Capstone California Exercise Series, the Homeland Security Exercise and Evaluation Program (HSEEP), and the Cal OES Integrated Preparedness Planning Workshop (IPPW). Exercise strengthens emergency management capabilities through the instruction of HSEEP methodology and instruction, and through exercise support, design, development, conduct, evaluation, and improvement planning. The CSTI Exercise team works closely with FEMA to support state and federal exercise priorities and sustain capabilities for diverse communities.

Exercise Support Program

- Support the state-level exercise series, Capstone California
- Teach HSEEP doctrine/methodology in California
- Support regional exercise initiatives and provide exercise support to state agencies and operational areas as bandwidth allows
- Provide exercise development expertise and support to Cal OES divisions and initiatives
- Conduct the state's annual IPPW and produce the state's Multi-Year Integrated Preparedness Plan
- Provide IPPW support to Operational Areas and state agencies
- Design and conduct exercises to meet emerging demands

Capstone California Exercise Series

The Cal OES state-level exercise series, first implemented in 2004 as Golden Guardian, is now known as Capstone California. It has become a complex multi-year exercise series designed to improve the state's preparedness for catastrophic events. Capstone California involves all levels of government, tribal entities, and private sector partnerships. The program aids in the development and assessment of emergency plans and procedures for all-hazards, catastrophic incidents that may affect California.

Homeland Security Exercise and Evaluation Program (HSEEP)

CSTI uses [HSEEP](#) doctrine in conducting its exercise programs. The purpose of HSEEP is to "provide a set of guiding principles for exercise programs, as well as a common approach to exercise program management, design and development, conduct, evaluation, and improvement planning across all mission areas – prevention, protection, mitigation, response, and recovery.

Exercises are a key component of national preparedness—they provide

elected and appointed officials and partners from across the whole community with the opportunity to shape planning, assess and validate capabilities, and address areas for improvement.”

HSEEP Course

The CSTI Exercise Unit offers the HSEEP K/L0146 course virtually and in person multiple times throughout each year. The course consists of 16 hours of training conducted over multiple days. Scheduled HSEEP courses are listed in the State Training Bulletin.

Scheduled courses are listed in the [State Training Bulletin](#).

Integrated Preparedness Planning Workshops (IPPW)

The goal of the IPPW is to align activities to established priorities, and to de-conflict, and synchronize a training and exercise plan to support those priorities. The IPPW process produces the Cal OES Multi-Year Integrated Preparedness Plan (IPP).

The Cal OES IPPW annual planning cycle includes input and participation from Cal OES Directorates, appropriate grant managers, and training and exercise representatives. The intent behind the IPPW is to enhance collaboration within the State of California. The state IPP is comprised of a two- to five-year training and exercise calendar for each entity's submissions. The Cal OES CSTI Exercise Division also offers subject matter expert support to operational areas and agencies in support of their IPPW process.

CSTI State Exercise Program Point of Contact:

Chief, State Exercise Operations:
