Subject: Single Source Training Provider

To Whom It May Concern:

Pursuant to California Government Code, Title 2, Division 1, Chapter 7, Sections 8588 (a) and (b), the California Governor's Office of Emergency Services (Cal OES), through the California Specialized Training Institute (CSTI), is responsible for providing "training to state agencies, cities and counties in their planning and preparation for disasters."

As part of this mission, CSTI delivers courses that are developed and maintained by the Federal Emergency Management Agency's (FEMA) Emergency Management Institute. FEMA authorizes each state's emergency management office to enhance the base curriculum for their states, deliver the courses, and issue state-level certificates for these courses. These courses are distinguished by a "G" designator in the course number.

In California, CSTI is the sole authorized presenter of "G" courses; that is, CSTI is the only entity within California authorized to issue state-level certification for completed training. The same applies to CSTI's own curriculum.

The classes for which CSTI is the single source training provider include:

- G141, Instructional Presentation and Evaluation Skills
- G197, Integrating Access and Functional Needs into Emergency Management
- G205, Recovery from Disaster: The Local Community Role
- G235, Emergency Planning
- G288, Volunteer and Donations Management
- G358, Evacuation and Re-Entry Planning
- G364, Multi-Hazard Emergency Planning for Schools
- G366, Planning for Needs of Children in Disasters
- G393, Mitigation for Emergency Managers
- G418, Mass Care – Emergency Assistance Planning and Operations
- G489, Management of Spontaneous Volunteers in Disasters
- G557, Rapid Needs Assessment
- K/L0146 Homeland Security Exercise and Evaluation Program/Enhanced Exercise Design, Conduct and Evaluation (combined course)
- K/L0146, Homeland Security Exercise and Evaluation Program (FEMA certificate)
- K/L0105, Public Information and Warning
- K/L0388, Advanced Public Information Officer (CSTI / FEMA certificate)
- Emergency Management Concepts
- Emergency Management Instructor Certification

CSTI has made a limited number of "G" courses available through instructors certified through its Emergency Management Outreach Program. These instructors use CSTI's curriculum and materials and are able to issue certificates through CSTI. The "G" courses available through both CSTI and CSTI's Outreach instructors are:

- G191, ICS/EOC Interface
- G611, series, EOC Section Overview
- G626, EOC Action Planning
- G775, EOC Management and Operations

Because these courses are available from multiple presenters, competitive procurement processes must be used to select training vendors.
