# CALIFORNIA FIRE SERVICE AND RESCUE EMERGENCY MUTUAL AID PLAN

## I. INTRODUCTION

The *California Fire Service and Rescue Emergency Mutual Aid Plan* is an extension of, and supportive document to, the California Emergency Plan. The California Emergency Plan is published in four parts as follows:

- Part One: BASIC EMERGENCY PLAN
- Part Two: PEACETIME EMERGENCY PLAN
- Part Three: COMPENDIUM OF LEGISLATION AND REFERENCES
- Part Four: WAR EMERGENCY PLAN

Parts One, Two, and Four provide the planning basis and concepts for the development of the *California Fire Service and Rescue Emergency Mutual Aid Plan*. This Plan supports the concepts of the Incident Command System (ICS), the Integrated Emergency Management System (IEMS), and multi-hazard response planning. It is intended that more detailed operational plans will supplement this document at the local, area, and regional levels. California fire and rescue service conducts emergency operations planning at four levels: Local, Operational Area, Regional, and State. To effectively implement the plans formulated at the various levels, all plans should be developed within the framework of the *California Fire Service and Rescue Emergency Mutual Aid Plan*.

The *California Fire Service and Rescue Emergency Mutual Aid Plan* as we know it today, was first prepared and adopted in 1950 as Annex 3-C of the California State Civil Defense and Disaster Relief Plan. This plan has been reviewed, revised, approved, and adopted after careful consideration by the Cal OES Fire and Rescue Service Advisory Committee/FIRESCOPE Board of Directors.

### A. PURPOSE OF THE PLAN:

1. To provide for systematic mobilization, organization, and operation of necessary fire and rescue resources of the state and its political subdivisions in mitigating the effects of disasters, whether natural or man-caused.

2. To provide comprehensive and compatible plans for the expedient mobilization and response of available fire and rescue resources on a local, area, regional, and statewide basis.
3. To establish guidelines for recruiting and training auxiliary personnel to augment regularly organized fire and rescue personnel during disaster operations.
4. To provide an annually updated fire and rescue inventory of all personnel, apparatus, and equipment in California.
5. To provide a plan and communication facilities for the interchange and dissemination of fire and rescue-related data, directives, and information between fire and rescue officials of local, state, and federal agencies.
6. To promote annual training and/or exercises between plan participants.

B. PLANNING BASIS:

1. No community has resources sufficient to cope with any and all emergencies for which potential exists.
2. Fire and rescue officials must preplan emergency operations to ensure efficient utilization of available resources.
3. Basic to California's emergency planning is a statewide system of mutual aid in which each jurisdiction relies first upon its own resources.
4. The California Disaster and Civil Defense Master Mutual Aid Agreement between the State of California, each of its counties, and those incorporated cities and fire protection districts signatory thereto:
  - a. Creates formal structure for provision of mutual aid;
  - b. Provides that no party shall be required to unreasonably deplete its own resources in furnishing mutual aid;
  - c. Provides that the responsible local official in whose jurisdiction an incident requiring mutual aid has occurred shall remain in charge at such incident, including the direction of such personnel and equipment provided through mutual aid plans pursuant to the agreement;

- d. Provides the intra- and inter-area and intra-regional mutual aid operational plans shall be developed by the parties thereof and are operative as between the parties thereof in accordance with the provisions of such operational plans, and;
  - e. Provides that reimbursement for mutual aid extended under this agreement and the operational plans adopted pursuant thereto, shall only be pursuant to the state law and policies, and in accordance with California Governor's Office of Emergency Services policies and procedures.
- 5. The state is divided into six mutual aid regions to facilitate the coordination of mutual aid. Through this system the Governor's Office is informed of conditions in each geographic and organizational area of the state, and the occurrence or imminent threat of disaster.
  - 6. In addition to fire and rescue resources, emergency operations plans should include both public and private agencies with support capability and/or emergency operation responsibilities.
  - 7. Emergency operations plans should be distributed to, and discussed with, management, command, operational, and support level personnel within each planning jurisdiction.
  - 8. Emergency operations plans must be continuously reviewed, revised, and tested to encompass change and refinement consistent with experience gained through disaster operations and training, and changes in resource availability.
  - 9. Emergency operations plans are to be reviewed, revised, and updated every five years.

This *California Fire Service and Rescue Emergency Mutual Aid Plan* supersedes the Fire and Rescue Emergency Plan, revised June 1978.

### **IV. DEFINITIONS**

- A. Fire and Rescue Resources:

California fire and rescue resources shall include, but not be limited to, the necessary personnel, apparatus, and equipment under the direct control of the fire and rescue service needed to provide mutual aid assistance for all emergencies; e.g., fire engines, ladder trucks, emergency medical service units, hazardous materials units, search and rescue, crash fire rescue, bulldozers, helicopters, fixed wing aircraft, hand crews, fire boats, communications equipment, etc.

- B. Local Emergency:

Shall mean the existence of conditions within the territorial limits of a local agency, in the absence of a duly proclaimed state of emergency, which conditions are a result of an emergency created by great public calamity such as air pollution, extraordinary fire, flood, storm, earthquake, civil disturbances, or other disaster which is or is likely to be beyond the control of the services, personnel, equipment, and facilities of that agency and require the combined forces of other local agencies to combat. (California Emergency Services Act, Chapter 7 of Division 1 of Title 2 of the Government Code - 1970 Statutes.)

C. State of Emergency:

Means the duly proclaimed existence of conditions of extreme peril to the safety of persons and property within the state caused by such conditions as air pollution, fire, flood, storm, civil disturbances, or earthquake, or other conditions, except as a result of war-caused emergencies, which conditions by reason of their magnitude, are or are likely to be beyond the control of the services, personnel, equipment, and facilities of any single county, city and county, or city, and would require the combined forces of a Mutual Aid Region or Regions to combat. "State of Emergency" does not include, nor does any provision of this plan apply to any condition resulting from a labor controversy. (California Emergency Services Act, Chapter 7 of Division 1 of Title 2 of the Government Code - 1970 Statutes.)

D. State of War Emergency:

Means the conditions which exists immediately, with or without a proclamation thereof by the Governor, whenever this state or nation is attacked by an enemy or upon receipt by the state of a warning from the federal government indicating that such attack is probable or imminent. (California Emergency Services Act, Chapter 7 of Division 1 of Title 2 of the Government Code - 1970 Statutes.)

E. Disaster Service Worker:

Shall mean any person who is registered with a disaster council for the purpose of engaging in disaster service pursuant to the "California Emergency Services Act" without pay or other consideration. "Disaster Service Worker" includes volunteer civil defense workers and public employees and also includes any unregistered person impressed into service during a State of Emergency by a person having authority to command the aid of citizens in the execution of that person's duties. "Disaster Service Worker" does not include any person registered as an active fire and rescue service member of any regularly-organized volunteer fire department, having official recognition and full or partial support of the county.

Pursuant to the *California Fire Service and Rescue Emergency Mutual Aid Plan*, "Disaster Service Workers" shall be recruited and trained to augment the regular fire and rescue forces. They will assist in fighting fires and/or rescuing persons, and save property and perform other duties as required.

Training necessary to engage in such activities is defined as authorized and supervised training carried on in such a manner and by a qualified person as the local disaster council shall prescribe. (Section 3211.92, California Labor Code.)

F. Mutual Aid:

Shall mean an agreement in which two or more parties agree to furnish resources and facilities and to render services to each and every other party of the agreement to prevent and combat any type of disaster or emergency.

Local needs not met by the *California Fire Service and Rescue Emergency Mutual Aid Plan* should be resolved through development of local automatic or mutual aid agreements.

1. Voluntary Mutual Aid

Mutual aid is voluntary when an agreement is initiated either verbally or in writing. When in writing, which is preferable, the conditions may be enumerated as to what and how much of a department's resources may be committed.

2. Obligatory Mutual Aid

Mutual aid under a "State of War Emergency" shall be deemed obligatory. Mutual aid under a "State of Emergency" may be obligatory. (Emergency Services Act, 1970)

3. Master Mutual Aid Agreement

An agreement made and entered into by and between the State of California, its various departments and agencies, and the various political subdivisions, municipal corporations, and other public agencies of the State of California to facilitate implementation of Chapter 7 of Division 1 of Title 2 of the Government Code entitled "California Emergency Services Act."

4. California Fire Assistance Agreement

An agreement made and entered into by and between the State of California, Governor's Office of Emergency Services (Representing the California Fire and Rescue Mutual Aid System) and California Department of Forestry and Fire Protection, and the five Federal Fire Agencies (USDA Forest Service, USDI National Park Service, Bureau of Land Management, Fish and Wildlife Services, and Bureau of Indian Affairs) for the purpose of coordinating the use of and reimbursement for local government Fire and Rescue resources used at wildfire incidents.

G. Mutual Aid Region:

Shall mean a subdivision of the state's fire and rescue organization, established to facilitate the coordination of mutual aid and other emergency operations within a geographical area of the state, consisting of two or more county operational areas.

H. Operational Area:

Shall mean an intermediate level of the state's fire and rescue organization, normally consisting of a county and all fire and rescue organizations within the county. (Exception: Los Angeles County and the Tahoe Basin.)

I. Assistance by Hire:

Shall mean elements of personnel and equipment, which are provided by cooperating agencies through specific arrangements not associated with this plan. Where such arrangements exist, parties should be thoroughly familiar with, and aware of, provisions at time of request and response.

# V. MUTUAL AID REGIONS

## Cal OES Fire and Rescue Division Mutual Aid Region Map

## VI. POLICIES

The following policies form the basis of the *California Fire Service and Rescue Emergency Mutual Aid Plan*:

- A. The basic tenets of emergency planning are self-help and mutual aid.
- B. Emergency planning and preparation is a task which must be shared by all political subdivisions and industries as well as every individual citizen.
- C. The *California Fire Service and Rescue Emergency Mutual Aid Plan* provides a practical and flexible pattern for the orderly development and operation of mutual aid on a voluntary basis between cities, cities and counties, fire districts, special districts, county fire departments, and applicable state agencies. Normal fire department operating procedures are utilized, including day-to-day mutual aid agreements, and plans which have been developed by local fire and rescue officials.
- D. Operational Area and Region Plans shall be consistent with policy of the Master Mutual Aid Agreement and the *California Fire Service and Rescue Emergency Mutual Aid Plan*.
- E. Reimbursement for mutual aid may be provided pursuant to a governor's disaster proclamation or when conditions warrant invoking the Cal OES/CAL FIRE/USFS/BLM/NPA/F&WS/BIA Cooperative Agreement. There is no other existing provision for mutual aid reimbursement.
  - 1. The California Governor's Office of Emergency Services shall be required to provide direction, ongoing guidance, and monitoring throughout the process until reimbursement is received by local agencies.
  - 2. Memorandums of understanding between federal, state, and local agencies will not include a commitment of local resources without the expressed, written consent of the local jurisdiction(s).
- F. In developing emergency plans, provisions should be made for integrating fire and rescue resources into mutual aid organizations for both fire and non-fire related disasters; e.g., earthquake, flood, radiological defense, hazardous materials incidents, and war-related sheltering and/or relocation of significant portions of the population. In planning for war-related emergencies, provisions for pre- and post-attack activities should be included; e.g., shelter improvement, radiological monitoring, and decontamination.
- G. In developing local mutual aid and emergency preparedness plans, provisions must be made for liability and property damage insurance coverage on

apparatus and equipment used beyond the territorial limits of the political subdivision. Consideration must also be given to the rights, privileges, and immunities of paid, volunteer, and auxiliary personnel in order that they may be fully protected while performing their duties under a mutual aid agreement or an emergency preparedness plan. Provision is made in state laws to deal with these matters, and the procedure outlined therein should be followed to ensure maximum protection.

- H. Local mutual aid and emergency preparedness plans should reference the Master Mutual Aid Agreement by signature of all parties concerned.
- I. The State of California provides Workers' Compensation coverage for certain classes of auxiliary and volunteer personnel engaged in activities directly related to defense preparedness or disaster operations. Coverage is also extended to those unregistered persons impressed into service during a State of Emergency or State of War Emergency by a person having authority to command the aid of citizens in the execution of required duties. No payment of premium is required of local political subdivisions for such coverage. Coverage is not, however, extended to any member registered as an active fire fighting member of any regularly organized volunteer fire department having official recognition, and full or partial support of the county, city, town, or district in which such fire agency is located.
- J. Responsible Agency will:
  - 1. Reasonably exhaust local resources before calling for outside assistance;
  - 2. Render the maximum practicable assistance to all emergency-stricken communities under provisions of the Master Mutual Aid Agreement;
  - 3. Provide a current annual inventory of all fire department personnel, apparatus, and equipment to the Operational Area Fire and Rescue Coordinator;
  - 4. Provide for receiving and disseminating information, data, and directives, and;
  - 5. Conduct the necessary training to adequately perform their functions and responsibilities during emergencies.

## **VII. ASSUMPTIONS**

- A. MAJOR EMERGENCIES:

Fire and rescue emergencies may reach such magnitude as to require mutual aid resources from adjacent local and state levels.

**B. NATURAL DISASTER:**

Natural disasters may necessitate mobilization of fire and rescue resources for the preservation and protection of life and property from threats other than fire; e.g., earthquake, flood, windstorm, etc.

**C. SABOTAGE:**

Fire sabotage is an enemy capability. Urban areas would be particularly subject to sabotage during pre-attack periods. Metropolitan and wildland areas would be especially vulnerable to incendiarism.

**D. CIVIL DISTURBANCE:**

Civil disturbances frequently result in injuries to persons and property damage. Explosives and fire bombs are not uncommon components of civil disturbances. Fire and rescue mutual aid resources are likely to be mobilized for such occurrences.

**E. POLITICAL VIOLENCE AND TERRORISM:**

Incidents of kidnapping, bombing, bomb threat, and incendiarism to achieve political concession and public notoriety are becoming more prevalent. Such terrorist and violent activity may result in fire and/or rescue emergencies necessitating mobilization of mutual aid resources. There is potential for immobilization of local resources through bombing, blackmail, or sniping activity.

**F. ATTACK:**

An enemy attack upon California or adjacent states could result in fire and rescue problems of such magnitude as to require utilization of all fire and rescue resources within the state and the exchange of resources between states.

**G. LOCAL FIRE SERVICES:**

Local officials will maintain fire and rescue resources consistent with anticipated needs. Such services will be augmented by training volunteers for utilization in major disaster operations.

## **VII. ORGANIZATION**

The fire and rescue service includes all public and private entities furnishing fire protection within the state. During a State of War, or when ordered by the Governor pursuant to the California Emergency Services Act, all such fire protection agencies become an organizational part of the California Governor's Office of Emergency Services, Fire and Rescue Division.

A. LOCAL FIRE OFFICIAL:

The fire chief, or senior fire and rescue official by other designated title, of each local entity providing public fire protection, will serve as fire and rescue representative to their respective Operational Area Fire and Rescue Coordinator.

B. OPERATIONAL AREA FIRE AND RESCUE COORDINATOR:

Operational Area Fire and Rescue Coordinators are selected by the fire chiefs of local fire and rescue entities within an operational area. They shall each appoint one or more alternate fire and rescue coordinators. They, or their alternates, will serve on the staff of the Operational Area emergency services official in their respective area.

C. REGIONAL FIRE AND RESCUE COORDINATOR:

Regional Fire and Rescue Coordinators are selected for a three-year term by Operational Area Fire and Rescue Coordinators within their respective regions. They shall each appoint one or more alternate Regional Fire and Rescue Coordinators. They, or their alternates, will serve on the staff of the Cal OES Regional Manager during a State of War Emergency or State of Emergency proclaimed by the Governor.

D. STATE FIRE AND RESCUE COORDINATOR:

The State Fire and Rescue Coordinator is the Chief of the Fire and Rescue Division of the California Governor's Office of Emergency Services and is a staff member of the Director of the California Governor's Office of Emergency Services. The State Fire and Rescue Coordinator is responsible for taking appropriate action on requests for mutual aid received through Regional Fire and Rescue Coordinator channels.

E. OTHER STATE AGENCIES:

The Governor may assign to state agencies any activities concerned with the mitigation of the effects of an emergency (Article 7, Chapter 7 of Division 1 of Title 2 of the Government Code).

F. CALIFORNIA GOVERNOR'S OFFICE OF EMERGENCY SERVICES (Cal OES):

Provides coordination, guidance, and assistance in the planning, response, and recovery for all disasters within the state.

G. CALIFORNIA DEPARTMENT OF FORESTRY AND FIRE PROTECTION (CAL FIRE):

Provides fire protection services, and when available, rescue, first aid, and other emergency services to those forest and other wildland areas for which the state is responsible, and to those areas and/or communities for which the state is responsible by contractual arrangements. The Department of Forestry and Fire Protection assists with personnel and equipment, including conservation camp crews (provided by the California Department of Corrections and California Youth Authority), in fire suppression, rescue, and cleanup, communications, radiological monitoring, and personnel care as emergencies may require and dependent upon their normally assigned fire protection responsibilities.

H. STATE FIRE MARSHAL:

Assists Cal OES, Fire and Rescue Division by providing personnel to facilitate coordination of mutual aid fire and rescue operations; provides personnel for arson and explosion investigation, and flammable liquid pipeline emergencies.

I. DEPARTMENT OF FISH AND GAME:

Assists other agencies in search and rescue missions; provides recommendations and guidelines for hazardous substance incidents, which have or may contaminate streams, waterways, or state properties.

J. MILITARY DEPARTMENT:

At the direction of the Governor, assists civil authorities in protecting life and property from fires, and conducts support operations designed to minimize devastation by fire; e.g., communications, transportation, evacuation, and engineering assistance, and by providing personnel and equipment for rescue operations.

K. DEPARTMENT OF TRANSPORTATION (CAL TRANS):

Assists in the identification and containment of hazardous materials incidents and the coordination of traffic flow restoration with the Highway Patrol.

L. CALIFORNIA HIGHWAY PATROL:

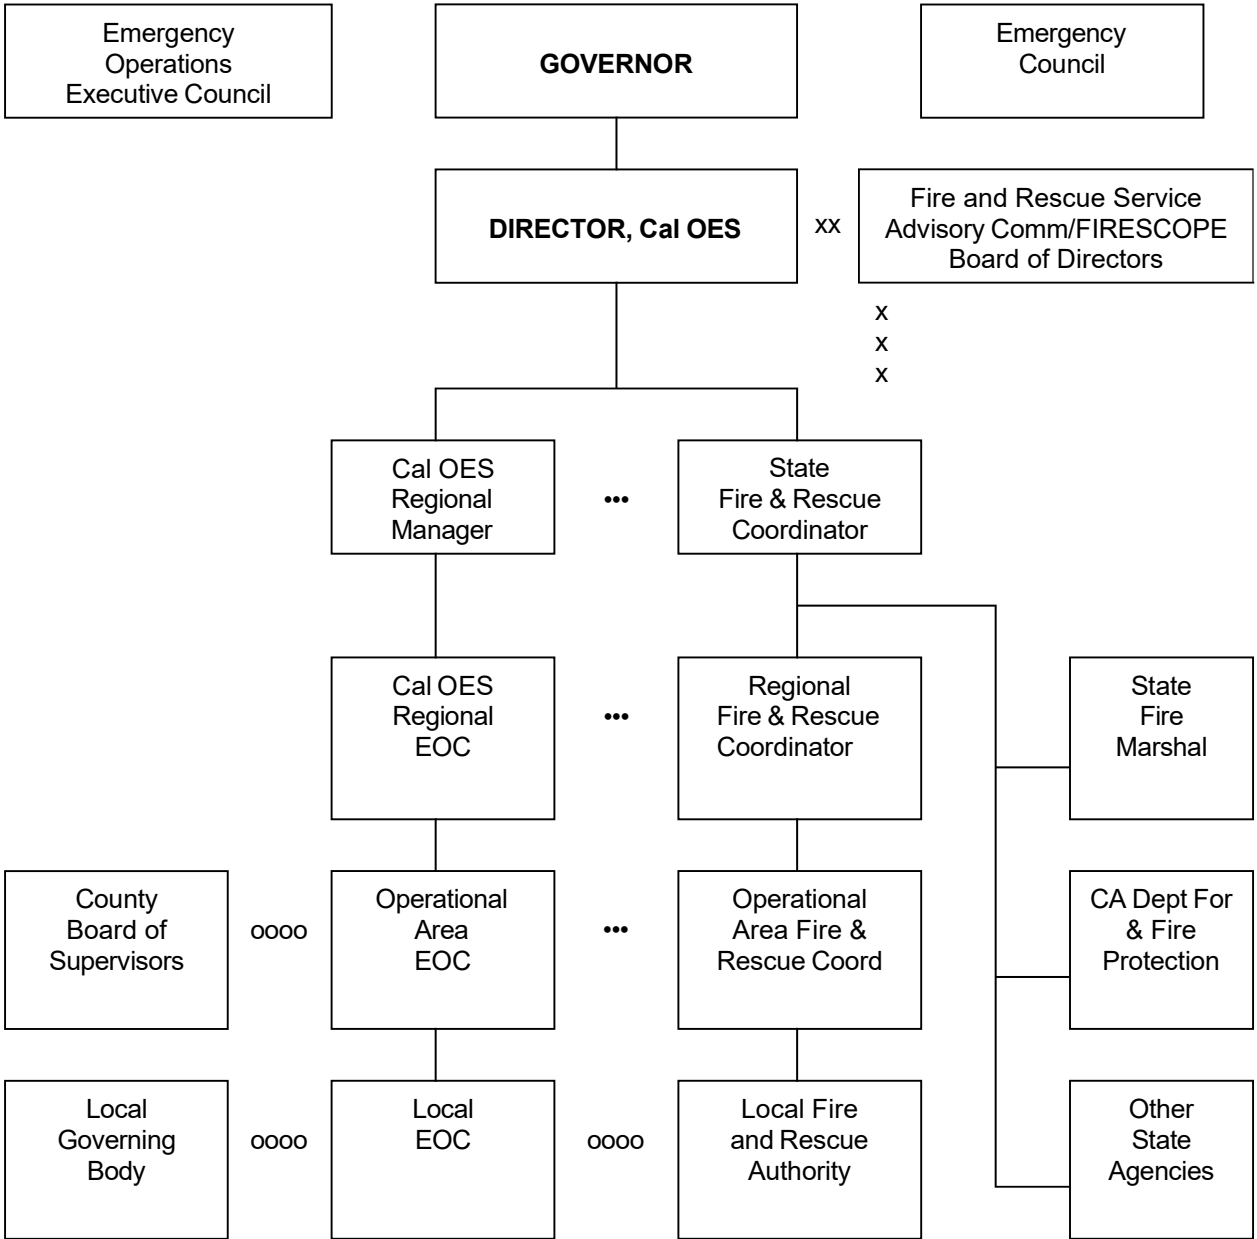

Acts as scene manager in hazardous material emergencies on all freeways, state owned toll bridges, highways, and roads in unincorporated areas of the state.

M. CALIFORNIA CONSERVATION CORPS

Provides hand crews, helitack crews, and fire camp crews to the California Department of Forestry and Fire Protection

## **X. PROCEDURES - MUTUAL AID**

Fire and rescue mutual aid rendered pursuant to California's Master Mutual Aid Agreement, is based upon an incremental and progressive system of mobilization. Mobilization plans have been based upon the concept of providing a local fire and rescue authority sufficient resources without extraordinary depletion of fire and rescue defenses outside the area of disaster. Under normal conditions, fire and rescue mutual aid plans are activated in ascending order; i.e., local, county, region, inter-region. Circumstances may exist that make mobilization of significant fire and rescue forces from within the area or region of disaster impractical and imprudent. Inter-regional mutual aid is, therefore, not contingent upon mobilization of uncommitted resources within the region of disaster.

### **A. LOCAL FIRE AND RESCUE RESOURCES:**

Local fire and rescue resources include resources available through automatic and/or day-to-day mutual aid agreements with neighboring jurisdictions. Local mobilization plans are activated by requests to participating agencies and must provide for notification of the

Operational Area (county) Fire and Rescue Coordinator upon activation. The Operational Area Fire and Rescue Coordinator must know of those resources committed under local plans when determining resource availability for subsequent response.

### **B. OPERATIONAL AREA FIRE AND RESCUE RESOURCES:**

Operational Area Fire and Rescue resources are those which are made available to a participating agency through the approved and adopted Operational Area (county) Fire and Rescue Emergency Mutual Aid Plan. Mobilization of Operational Area resources is activated by the Operational Area Fire and Rescue Coordinator, or his representative, in response to a request for assistance from an authorized fire and rescue official of the participating agency in need. The Operational Area Fire and Rescue Coordinator must notify the Regional Fire and Rescue Coordinator of area resources committed.

### **C. REGIONAL FIRE AND RESCUE RESOURCES:**

Regional fire and rescue resources include all resources available to a participating agency through the approved and adopted Regional Fire and Rescue Emergency Mutual Aid Plan. Operational Area (county) plans are significant elements of regional plans.

Mobilization of regional fire and rescue resources is activated by the Regional Fire and Rescue Coordinator in response to a request for assistance from an Operational Area Fire and Rescue Coordinator. Regional Fire and Rescue

Coordinators must notify the Chief, Cal OES Fire and Rescue Division, of resources committed.

D. INTER-REGIONAL FIRE AND RESCUE RESOURCES

Inter-regional fire and rescue mutual aid is mobilized through the Cal OES Fire and Rescue Coordinator in the afflicted mutual aid region. Selection of region(s) from which resources are to be drawn is made in consideration of the imminence of threat to life and property and conditions existing in the various regions. Fire and rescue forces will be mobilized in the strike team mode for inter-regional fire and rescue mutual aid response. Strike teams will normally consist of five engines and a qualified strike team leader unless unusual circumstances prevent assemblage in these numbers. (Each Cal OES engine will be staffed by three [3] or more trained fire fighters.) Regional Fire and Rescue Coordinators must be notified of any strike team with less than five engines. This information must be relayed to the requesting agency. Strike teams of resources other than fire engines are identified within state ICS plans. Regional Fire and Rescue Coordinators requesting aid must specify the number, kind, and type of strike teams and support resources desired. Utilization of Multi-Agency Coordination System resource ordering form (MACS Form 420) is required; procedures for use to be developed by Cal OES.

Insofar as is practicable, a Cal OES Assistant State Fire and Rescue Coordinator will be dispatched when five or more Cal OES fire engines are activated. A Cal OES fire equipment mechanic will be dispatched to fire emergencies in which Cal OES fire equipment is involved when, in the opinion of the assigned Cal OES Assistant State Fire and Rescue Coordinator, such response is needed.

Cal OES fire and rescue resources may be included in local, area, and regional fire and rescue mutual aid plans when such resources are assigned within the boundaries covered by the plan.

E. DISPATCH CENTER:

Fire and rescue dispatch centers must be carefully selected and adequately equipped for emergency operations. They should be located in a facility which conducts 24-hour-per-day operations. They must be equipped with facilities which permit direct communications with all fire and rescue agencies within their area of operation. They must be staffed with competent personnel and equipped with such maps, charts, records, and operational data necessary to perform emergency operations on a 24-hour-per-day, full-time basis, etc. Alternate fire and rescue dispatch centers should have the same capability as primary centers, thus ensuring continued operations in the event of failure of the primary centers.

F. TRAINING:

1. *The training of regular emergency personnel in specialized skills and techniques is essential if each level of the fire and rescue service is to successfully discharge assigned emergency responsibilities to handle all-risk emergencies.* Fire and rescue officials should identify key personnel with emergency assignments and ensure the adequacy of their training.
2. The State of California Fire and Rescue Service has adopted the Incident Command System and Interagency Incident Management System. All agencies should maintain familiarity with these systems.

G. PLANNING:

A well-developed decision-making process can compliment all phases of mutual aid utilization. Failure to plan ensures failure. Effective emergency action is dependent upon comprehensive planning. All mutual aid planning must consider the logistical and financial obligations incurred in either providing or receiving mutual aid assistance; e.g., fuel, feeding, and overtime for personnel. Emergency situations evolve through a series of stages: Planning, Preparedness, and Response and Recovery.

1. Preparedness

While this phase does not apply to all emergencies, involved jurisdictions, when possible, will put pre-emergency plans into operation. Such plans include alerting key personnel, ensuring readiness of essential resources, and preparing to move resources to the threatened area when required. If a request for mutual aid resources is anticipated, the next higher level of jurisdiction must be advised, including all available information relative to the expected threat, its location, imminence, potential severity, and other associated problems.

2. Response

The nature of emergency operations is dependent upon the characteristics and requirements of the situation. This phase may require the use of local, operational area, regional, and state resources. The magnitude and severity of fire and rescue service emergencies may develop rapidly and without warning. Equally rapid pre-planned response on the part of the fire and rescue service is required. The situation may develop requiring federal assistance under provisions of a Presidential Disaster Declaration, thereby involving the Federal Emergency Management Agency (FEMA).

3. Recovery

Planning for this phase should include reestablishment of essential public services, public safety inspections, and restoration of public facilities.

There are references in the following agreement to the California Disaster Act, State Disaster Council, and various sections of the Military and Veterans Code.

Effective November 23, 1970, by enactment of Chapter 1454, Statutes 1970, the California Disaster Act (Sections 1500 ff., Military and Veterans Code) was superseded by the California Emergency Services Act (Sections 1550 ff., Government Code), and the State Disaster Council was superseded by the California Emergency Council.

Section 8668 of the California Emergency Services Act provides:

"Master Mutual Aid Agreement" means the California Disaster and Civil Defense Master Mutual Aid Agreement, made and entered into by and between the State of California, its various departments and agencies, and the various political subdivisions of the state, to facilitate implementation of the purposes of this chapter.

Substantially, the same provisions as previously contained in Sections 1541, 1564, 1586 and 1587 of the Military and Veterans code, referred to in the foregoing agreement, are now contained in Sections 8633, 8618, 8652 and 8653, respectively, of the Government Code.

# CALIFORNIA DISASTER AND CIVIL DEFENSE MASTER MUTUAL AID AGREEMENT

This agreement made and entered into by and between the STATE OF CALIFORNIA, its various departments and agencies, and the various political subdivisions, municipal corporations, and other public agencies of the State of California;

## **WITNESSETH:**

**WHEREAS**, it is necessary that all of the resources and facilities of the State, its various departments and agencies, and all its political subdivisions, municipal corporations, and other public agencies be made available to prevent and combat the effect of disasters which may result from such calamities as flood, fire, earthquake, pestilence, war, sabotage, and riot: and

**WHEREAS**, it is desirable that each of the parties hereto should voluntarily aid and assist each other in the event that a disaster should occur, by the interchange of services and facilities, including, but not limited to, fire, police, medical and health, communication, and transportation services and facilities, to cope with the problems of rescue, relief, evacuation, rehabilitation, and reconstruction which would arise in the event of a disaster; and

**WHEREAS**, it is necessary and desirable that a cooperative agreement be executed for the interchange of such mutual aid on a local, countywide, regional, statewide, and interstate basis;

1. Each party shall develop a plan providing for the effective mobilization of all its resources and facilities, both public and private, to cope with any type of disaster.

2. Each party agrees to furnish resources and facilities and to render services to each and every other party to this agreement to prevent and combat any type of disaster in accordance with duly adopted mutual aid operational plans, whether heretofore or hereafter adopted, detailing the method and manner by which such resources, facilities, and services are to be made available and furnished, which operational plans may include provisions for training and testing to make such mutual aid effective; provided, however, that no party shall be required to deplete unreasonably its own resources, facilities, and services in furnishing such mutual aid.

3. It is expressly understood that this agreement and the operational plans adopted pursuant thereto shall not supplant existing agreements between some of the parties hereto providing for the exchange or furnishing of certain types of facilities and services on a reimbursable, exchange, or other basis, but that the mutual aid extended under this agreement and the operational plans adopted pursuant thereto, shall be without reimbursement unless otherwise expressly provided for by the parties to this agreement or as provided in Sections 1541, 1586, and 1587, Military and Veterans Code; and that such mutual aid is intended to be available in the event of a disaster of such magnitude that it is,

or is likely to be, beyond the control of a single party and requires the combined forces of several or all of the parties to this agreement to combat.

4. It is expressly understood that the mutual aid extended under this agreement and the operational plans adopted pursuant thereto shall be available and furnished in all cases of local peril or emergency and in all cases in which a *STATE OF EXTREME EMERGENCY* has been proclaimed.

5. It is expressly understood that any mutual aid extended under this agreement and the operational plans adopted pursuant thereto, is furnished in accordance with the "California Disaster Act" and other applicable provisions of law, and except as otherwise provided by law that: "The responsible local official in whose jurisdiction an incident requiring mutual aid has occurred shall remain in charge at such incident including the direction of such personnel and equipment provided him through the operation of such mutual aid plans." (Sec. 1564, Military and Veterans Code.)

6. It is expressly understood that when and as the State of California enters into mutual aid agreements with other states and the Federal Government, the parties to this agreement shall abide by such mutual aid agreements in accordance with the law.

The State Disaster Council shall notify each party to such operational plans of its approval, and shall also send copies of such operational plans and who are in the same area and affected by such operational plans. Such operational plans shall be operative as to such other parties 20 days after receipt thereof unless within that time the party by resolution or notice given to the State Disaster Council, in the same manner as notice of termination of participation in this agreement, declines to participate in the particular operational plan.

b. Statewide and regional mutual aid operational plans shall be approved by the State Disaster Council and copies thereof shall forthwith be sent to each and every party affected by such operational plans. Such operational plans shall be operative as to the parties affected thereby 20 days after receipt thereof unless within that time the party by resolution or notice given to the State Disaster Council, in the same manner as notice of termination of participation in this agreement, declines to participate in the particular operational plan.

8. This agreement shall become effective as to each party when approved or executed by the party, and shall remain operative and effective as between each and every party that has heretofore or hereafter approved or executed this agreement, until participation in this agreement is terminated by the party. The termination by one or more of the parties of its participation in this agreement shall not affect the operation of this agreement as between the other parties thereto. Upon approval or execution of this agreement the State Disaster Council shall send copies of all approved and existing mutual aid operational plans affecting such party which shall become operative as to such party 20 days after receipt thereof unless within that time the party by resolution or notice given to the State Disaster Council, in the same manner as notice of termination of participation in this agreement, declines to participate in any particular operational plan.
