

Required Documents Submission

Subrecipients must submit an electronic copy of their completed FMFW to their Program Representative for review. After the required documents are approved, all electronic copies of the FMFW, along with the required documents must be emailed, with original or electronic signatures, by the application due date. During the application process, if it is determined all allocated funds cannot be expended by the end of the period of performance, inform your Program Representative as soon as possible. The completed application documents should be received by Cal OES no later than the date provided in the FY 2022 NSGP Timeline, referenced as Attachment B.

Late or Incomplete Required Documents

Late or incomplete required documents may be denied. If required documents are incomplete, the Program Representative may request additional information. Requests for late submission of required documents must be emailed to the Program Representative prior to the application due date. Cal OES has sole discretion to accept or reject late or incomplete required documents.

NSGP Contact Information

Subrecipient questions, comments, and correspondence should be directed to:

California Governor's Office of Emergency Services
ATTN: Grants Management (Building E)
Infrastructure Protection Grants Unit
3650 Schriever Avenue
Mather, CA 95655

Ali Dalvi	(916) 328-7580

Amanda Kovacs	(916) 328-7658
Thuy Nguyen	(916) 328-7667

The general Infrastructure Protection Grants Unit email address is: NonProfit.Security.Grant@CalOES.ca.gov

Subaward Approval

Subrecipients will receive a formal notification of award. Subrecipient award letters must be signed, dated, and returned to Cal OES within 20 calendar days. Once the completed application, along with the signed award letter is received and approved, reimbursement of eligible Subaward expenditures may be requested using the Cal OES FMFW.

Payment Request Process

To request an advance or cash reimbursement payment of NSGP funds, Subrecipients must first complete a payment request using the Cal OES FMFW, returning it to the appropriate Program Representative. Subrecipients who fail to follow the workbook instructions may experience delays in processing the payment request.

Payments can only be made if the Subrecipient has an approved application.

Advances and Interest Earned on Advances

Advance payment means a payment is requested before Subrecipients have disbursed the funds for program purposes. Subrecipients may be paid an advance, provided they maintain a willingness and ability to maintain procedures to minimize the time elapsing between the receipt of funds and their disbursement. The timing and amount of advance payments must be as close as administratively feasible to the actual disbursements by the Subrecipient for project costs.

Federal rules require advances to be deposited in interest-bearing accounts. Interest earned amounts up to \$500 per year may be retained by Subrecipients for administrative expense; any additional interest earned on federal advance payments must be returned annually to Cal OES.

Requests for an advance of funds cannot exceed fifty percent of the subaward and must be used pursuant to the intent of the approved advance.

Equipment purchased with advanced funds must be installed before subsequent funding is requested.

Semi-Annual Drawdown Requirements

All Subrecipients must report expenditures and request funds at least semi-annually throughout the period of performance. Semi-annual drawdowns should occur in March and October of each calendar year following final approval of the subaward application, except for the final cash request, which must be submitted within twenty calendar days after the end of the subaward period of performance.

Modifications

Post-award budget and scope modifications must be requested using the Cal OES FMFW, signed by the Subrecipient's AA, and submitted to the Program Representative.

The Subrecipient may implement grant modification activities, and incur associated expenses, only after receiving written final approval of the modification from Cal OES.

DHS/FEMA requires prior written approval of any change in scope/objective of the grant-funded activity after the award is issued. Refer to [2 C.F.R. § 200.308](#) for additional information on Revision of Budget and Program Plans.

Request for change in scope or objective of the grant-funded activity after the award is made must be submitted to Cal OES. Subrecipients must also complete the Cal OES Modification Request Form. The request must include the following:

- A written request from the NSGP Subrecipient on its letterhead, outlining the scope or objective change, including the approved projects from the Subrecipient's Investment Justification (IJ), the funds and relative scope or objective significance allocated to those projects, the proposed changes, and any resulting reallocations as a result of the change of scope or objective;
- An explanation why the change of scope or objective is necessary; and
- The Subrecipient request must also address whether the proposed changes will impact its ability to complete the project within the award's period of performance.

DHS/FEMA will generally not approve the change of scope requests resulting from the following situations:

- Subrecipients that relocate their facilities after submitting their application who are requesting a change of scope to allow them to use NSGP funds towards projects at the new facility; or

Modifications Cont.

- Subrecipients that renovate their facilities after submitting their application in cases where the subsequent renovations would affect the vulnerability/risk assessment upon which the IJ is based.

Subrecipients must provide a written justification for all modification requests. The justification may be included in the body of the e-mail transmitting the request, or a document attached to the transmittal e-mail. Please reference [GMM 2018-17](#) for additional information regarding modification requests.

Planning

NSGP funds may be used for security or emergency planning expenses and the materials required to conduct planning activities. Planning must be related to the protection of the facility and the people within the facility and should include those with access and functional needs as well as those with limited English proficiency. Examples of planning activities allowable under this Program include:

- Development and enhancement of security plans and protocols;
- Development or further strengthening of security assessments;
- Emergency contingency plans;
- Evacuation/Shelter-in-place plans;
- Coordination and information sharing with fusion centers;
- Other project planning activities with prior approval from FEMA

Training

All grant-funded training activities must receive Cal OES approval prior to starting the training event. Allowable training-related costs under the NSGP are limited to:

- Attendance fees for the training, and
- Related expenses, such as materials, supplies, and/or equipment for the training.

No personnel costs, such as overtime and backfill costs, associated with attending the training courses are allowable. Travel costs are also not eligible.

Training Cont.

Training projects must be proposed in the IJ and must be presented by a pre-approved training provider. Training Feedback Numbers should be obtained no later than 30 days before the first day of the training or related activities.

Subrecipients must complete a [Training Request Form](#) and submit it electronically to Cal OES. When seeking approval of non-DHS/FEMA developed courses, course materials must be submitted with the approval requests. Conditional approvals are not offered.

For more information on this or other training-related inquiries, contact the [Cal OES Training Branch](#) at (916) 845-8745 or Training@caloes.ca.gov.

**Exercises,
Improvement
Plans and After
Action
Reporting**

Subrecipients should engage stakeholders to identify long-term training and exercise priorities. These priorities should address capability targets and gaps identified through a Threat and Hazard Identification and Risk Assessment, real-world events, previous exercises, and national areas for improvement identified in the NPR.

Subrecipients must report on all exercises conducted with NSGP grant funds. An After Action Report (AAR) Improvement Plan (IP) or Summary Report (for Seminars & Workshops) must be completed and submitted to Cal OES within 90 days after the exercise/seminars/workshops are conducted. It is acceptable to submit an *Exercise Summary Report for Seminars and Workshops* in lieu of a full AAR/IP.

AAR/IPs and Summary Reports should be e-mailed to:

- hseep@fema.dhs.gov
- exercise@caloes.ca.gov
- Your Program Representative

For exercise-related issues and/or questions, please email the Cal OES Exercise Team at exercise@caloes.ca.gov. Exercise costs will not be reimbursed until an AAR/IP is received by Cal OES.

Contracted Security Personnel Cont.

Contracted Security Personnel are allowed under the NSGP (costs to purchase equipment for contracted security are not allowed). Additionally, Subrecipients may not use more than fifty percent of their subawards to pay for personnel activities unless a waiver is approved by FEMA. Please reference [IB 421B](#) and [IB 441](#) for additional information.

Subrecipients requesting to reprogram funds in support of contracted security personnel must submit an Investment Modification to Cal OES for consideration.

The Investment Modification must include:

- A written request from the Subrecipient on formal letterhead signed by the AA; and
- Completion of the NSGP Contracted Security Personnel Request Form, which addresses the following requirements:
 - A brief description of the project(s), and indicate how much NSGP funding has been obligated towards each project(s);
 - Outline the scope or objective change to indicate which project(s) will be affected by the reprogramming request, and explain the financial and security impact of this change;
 - An explanation why the change of scope or objective is necessary;
 - Information regarding the Subrecipient's Vulnerability Assessment, and if it addressed any contracted security personnel recommendations; and
 - An explanation on whether the proposed changes will impact the Subrecipient's ability to complete the project(s) within the subaward period of performance, including an implementation timeline.

Procurement Standards and Written Procedures

Subrecipients must conduct procurement utilizing either their own written procurement standards and procedures, or the federal procurement standards found in [2 C.F.R. Part 200](#), whichever is stricter. Procurement standards must also contain a written conflict of interest policy which reflect applicable federal, state, local, and tribal laws.

Procurement Documentation

Per [2 C.F.R. § 200.318\(i\)](#), non-federal entities other than states and territories are required to maintain and retain records sufficient to detail the history of procurement covering at least the rationale for the procurement method, contract type, contractor selection or rejection, and the basis for the contract price. For any cost to be allowable, it must be adequately documented per [2 C.F.R. § 200.403\(g\)](#). Documentation that would cover this information include, but are not limited to:

- Solicitation documentation, such as requests for quotes, invitations for bids, or requests for proposals;
- Responses to solicitations, such as quotes, bids, or proposals;
- Pre-solicitation independent cost estimates and Post solicitation cost/price analyses on file for review by federal personnel, if applicable;
- Contract documents and amendments, including required contract provisions; and other documents required by federal regulations applicable at the time a grant is awarded to a Subrecipient.

Procurement Thresholds

Effective June 20, 2018, the micro-purchase threshold was increased from \$3,500 to \$10,000 and the simplified acquisition threshold was increased from \$150,000 to \$250,000. These increases apply to all Subrecipient procurements executed on or after June 20, 2018. Refer to [IB 434](#) for additional information.

Noncompetitive Procurements

All noncompetitive procurements exceeding the simplified acquisition threshold require Cal OES prior written approval to be eligible for reimbursement. This method of procurement must be approved by your local Purchasing Agent prior to submitting a request for Cal OES approval. A copy of the Purchasing Agent's approval must be included with the submission. Cal OES may request additional documentation that supports the procurement effort.

Environmental Planning and Historic Preservation

DHS/FEMA is required to ensure all activities and programs that are funded by the agency comply with federal Environmental Planning and Historic Preservation (EHP) regulations. Subrecipients proposing projects or activities (including, but not limited to, training, exercises, the installation of equipment, and construction or renovation projects) that have the potential to impact the environment or a historic structure must participate in the EHP review process. EHP Screening Memos must include detailed project information, explain the goals and objectives of the proposed project, and include supporting documentation.

DHS/FEMA may also require the Subrecipient to provide a confidential California Historical Resources Information System (CHRIS) report in addition to the [EHP Screening Form](#).

Determination of the necessity of a CHRIS report is based upon information disclosed on the EHP Screening Form. Program Representatives will provide additional instructions should this report be required.

EHP requests should be submitted to Cal OES as early as possible. All projects/activities triggering EHP must receive DHS/FEMA written approval prior to commencement of the funded activity.

Updated information may be referenced in the [FEMA GPD EHP Policy Guidance](#).

Competition

In accordance with [2 C.F.R. § 200.319](#), all procurement transactions must be conducted in a manner providing full and open competition consistent with the standards of this section and § 200.320.

Follow the federal or your own written procurement policies, whichever is more restrictive. If you follow your policies, they must meet the following minimum requirements:

- Obtain multiple written (signed and dated) bids from vendors; and
- Keep a written record of the following: WHO you contacted, WHEN you contacted them, WHAT prices were quoted, and WHY you selected the vendor. The records must include all bids.

Vendor Licensing

The State of California, Contractor's State License Board (CSLB) requires that anyone charging \$500 or more to perform construction work must be licensed. Please make sure your contractor possesses the correct license certification and is qualified to install your equipment.

Check a contractor's license number online at [CSLB website](#) or by calling (800) 321-2752. Contractors are required to place their license number on their business cards, bids, and contracts.

Bids, Estimates, and Invoices

Bids and invoices must include the following:

- Contractor/service provider's License Number;
- Invoice/estimate number;
- Make – (manufacturer/brand name);
- Model – (manufacturer's model name and number);
- Quantity – (amount purchased);
- Unit cost – (dollar amount per item);
- Any miscellaneous/installation equipment should be listed separately and include the details such as quantity ordered and price per unit;
- Labor/installation costs should be listed separately and detailed including price per hour per person; and
- State/local taxes should be listed separately.

Bids and invoices must be issued by the vendor who installed the equipment or performed the service. Bids and Invoices may not be created by the Subrecipient or representatives of the Subrecipient. Costs must be allowable according to [2 C.F.R. § 200.403](#), [§ 200.404](#), and [§ 200.405](#).

Construction and Renovation

When applying for construction funds, at the time of application, Subrecipients must submit evidence of approved zoning ordinances, architectural plans, any other locally required planning permits, and a notice of federal interest. Additionally, Subrecipients are required to submit a SF-424C Budget and Budget Detail that cites the project costs.

Subrecipients using funds for construction projects must comply with the Davis-Bacon Act. Subrecipients must ensure that their contractors or subcontractors for construction projects pay workers no less than the prevailing wages for

**Construction
and Renovation
Cont.**

laborers and mechanics employed on projects of a character like the contract work in the civil subdivision of the state in which the work is to be performed.

Written approval for construction must be provided by DHS/FEMA prior to the use of any NSGP funds for construction or renovation. No construction activities (including site preparation, utility installations, and any groundbreaking activities) or equipment installations on existing structures, may begin until the EHP review process is complete.

**Inventory
Control and
Property
Management**

Subrecipients must use standardized resource management concepts for resource typing and credentialing, in addition to maintaining an inventory by which to facilitate the effective identification, dispatch, deployment, tracking, and recovery of resources.

Subrecipients must have an effective inventory management system, to include:

- Property records that document description, serial/ID number, fund source, title information, acquisition date, cost, federal cost-share, location, use, condition, and ultimate disposition;
- A physical inventory conducted at least every two years;
- A control system to prevent loss, damage, and theft of grant purchased equipment and supplies; and
- Adequate maintenance procedures to keep the property in good condition.

**Equipment
Disposition**

When original or replacement equipment acquired under the NSGP is no longer needed for program activities, the Subrecipient must contact the Program Representative to request disposition instructions. See [2 C.F.R. § 200.313\(e\)](#).

Performance Reporting

Subrecipients must complete a BSIR each Winter and Summer using the DHS/FEMA [Grants Reporting Tool](#) (GRT) for the duration of the subaward period of performance or until all grant activities are completed and the subaward is formally closed by Cal OES. Failure to submit a BSIR could result in subaward reduction, suspension, or termination.

Access to the BSIR may be obtained through the GRT. To create a new account, please click the link that reads, "Register for an account" and follow the instructions provided. The Subrecipient will be required to ensure up-to-date project information is entered. The Project Ledger in the FMFW may assist with the BSIR data entry process. For additional assistance with the GRT, please contact your Program Representative.

Extension Requests

Extensions to the initial period of performance identified in the subaward will only be considered through formal, written requests to your Program Representative. Upon receipt of the extension request, Cal OES will:

1. Verify compliance with performance reporting requirements by confirming the Subrecipient has submitted all necessary performance reports;
2. Confirm the Subrecipient has provided sufficient justification for the request; and
3. If applicable, confirm the Subrecipient has demonstrated sufficient progress in past situations where an extension was authorized by Cal OES.

Extension requests will be granted only due to compelling legal, policy, or operational challenges, and will only be considered for the following reasons:

1. Contractual commitments with vendors that prevent completion of the project within the period of performance;
2. The project must undergo a complex environmental review which cannot be completed within this timeframe;
3. Projects are long-term by design and therefore; acceleration would compromise core programmatic goals; and
4. Where other special circumstances exist.

Extension Requests Cont.

To be considered, extension requests must be received no later than sixty days prior to the end of the Subrecipient's period of performance and must contain specific and compelling justifications as to why an extension is required.

All extension requests must address the following:

1. Grant program, fiscal year, and award number;
2. Reason for the delay;
3. Current status of the activity/activities;
4. Approved performance period termination date and new project completion date;
5. Amount of funds drawn down to date;
6. Remaining available funds, both federal and non-federal;
7. Budget outlining how remaining federal and non-federal funds will be expended;
8. Plan for completion, including milestones and timeframes for each milestone and the position/person responsible for implementing the plan for completion; and
9. Certification that the activity/activities will be completed within the extended period of performance without any modification to the original Statement of Work.

General questions regarding extension requirements and the extension request form should be directed to your Program Representative. For additional information, please see [IB 379](#). Extension requests for personnel and salaries do not meet the requirements of [IB 379](#) and will not be granted.

Subrecipients are expected to complete all grant-funded personnel activity by the end of the subaward period of performance.

Progress Reports on Grant Extensions

All Subrecipients that receive Cal OES approval to extend their FY 2022 grant subaward period of performance may be required to submit progress reports indicating completed and future project milestones on all extended projects. Progress reports must be submitted electronically to the Program Representative. Deadlines for the submission of progress reports will be established at the time of extension approval.

Monitoring

Cal OES Grants Monitoring actively monitors Subrecipients, through day-to-day communications, programmatic site visits, and desk and on-site compliance assessments. The purpose of the compliance assessment is to ensure Subrecipients are in compliance with applicable state and federal regulations, grant guidelines, and programmatic requirements. Monitoring activities may include, but are not limited to:

- Verifying that entries recorded on the FMFW categories are properly supported with source documentation;
- Eligibility of and support for expenditures, typically covering two to three years of data;
- Comparing actual Subrecipient activities to those approved in the grant application and subsequent modifications, including the review of timesheets and invoices as applicable;
- Procurements and contracts;
- Ensuring equipment lists are properly maintained and physical inventories are conducted;
- Ensuring advances have been disbursed in accordance with applicable guidelines; and
- Confirming compliance with:
 - Standard Assurances, and
 - Information provided on performance reports and payment requests

NOTE: It is the responsibility of all Subrecipients that pass down grant funds to other entities, to maintain and utilize a formal process to monitor the grant activities of their subawards. This requirement includes, but is not limited to, on-site verification of grant activities, as required. It is common for Subrecipients to receive findings in a programmatic site visit or compliance assessment, which require a Corrective Action Plan (CAP) to be submitted by Subrecipients. Those Subrecipients who fail to submit a CAP, as required, shall have a “hold” placed on any future reimbursements until the “finding” is resolved.

Failure to Submit Required Reports

Periodic reporting is required by the grant. Subrecipients who miss a single reporting deadline may receive a letter addressed to their Governing Body informing them of the failure to report. Subrecipients who fail to report twice in a row may have subsequent awards reduced by ten percent until timely reporting is reestablished.

Suspension/ Termination

Cal OES may suspend or terminate grant funding, in whole or in part, or other measures may be imposed for any of the following reasons:

- Failure to submit required reports.
- Failure to expend funds in a timely manner consistent with the grant milestones, guidance, and assurances.
- Failure to comply with the requirements or statutory progress toward the goals or objectives of federal or state law.
- Failure to make satisfactory progress toward the goals or objectives outlined in the Subrecipient application.
- Failure to follow grant agreement requirements or special conditions.
- Proposing or implementing substantial plan changes to the extent that, if originally submitted, the application would not have been selected for funding.
- False certification in the application or document.
- Failure to adequately manage, monitor, or direct the grant funding activities of their Subrecipients.

Before taking action, Cal OES will provide the Subrecipient reasonable notice of intent to impose corrective measures and will make every effort to informally resolve the problem.

Closeout

Cal OES will closeout Subrecipient awards when it determines all applicable administrative actions and all required work of the federal award have been completed.

Subawards will be closed after:

- Receiving any applicable Subrecipient Performance Report indicating that all approved work has been completed, and all funds have been distributed;
- All funds have been requested and reimbursed, or disencumbered;

Closeout Cont.

- Completing a review to confirm the accuracy of reported information;
- Reconciling actual costs to subawards, modifications, and payments; and
- Verifying the Subrecipient has submitted a final BSIR showing all grant funds have been expended.

Records Retention

The records retention period is three years from the date of the Cal OES Grant Closeout letter, or until any pending litigation, claim, or audit started before the expiration of the three-year retention period has been resolved and final action is taken. The Cal OES Grant Closeout Letter will notify the Subrecipient of the start of the records retention period for all programmatic and financial grant-related records.

If the State Administrative Agency award remains open after the Subrecipient's submission of the final BSIR, Cal OES will complete any additional BSIR reporting required under the award on behalf of the Subrecipient.

Closed grants may still be monitored and audited. Failure to maintain all grant records for the required retention period could result in a reduction of grant funds, and an invoice to return costs associated with the unsupported activities. If documents are retained longer than the required retention period, FEMA, the DHS Office of Inspector General, Government Accountability Office, and pass-through entity have the right to access these records as well. See Title 2 C.F.R § [200.334](#) and [200.337](#).
