Question 1

Quantify the Applicant's outreach contacts in underserved communities vulnerable to both earthquake (e.g., older buildings that have yet to be seismically retrofitted) and with high rates of access and functional needs:

Type response here

Question 2

Explain the Applicant's plan to access underserved/under-messaged communities to maximize engagements resulting in a demonstrated understanding of earthquake early warnings (E.g., MyShake app, Wireless Emergency Alerts, Android EQ Alerts):

Type response here

Question 3

During direct contacts between the Applicant or Subapplicant and residents, describe how critical information will be provided leading to an action (e.g., download the MyShake app):

Type response here

Question 4

Provide a budget narrative explaining how the Applicant will use the funds to achieve education and outreach engagements, increase Early Warning California adoption and use in mitigation and preparedness. The funding requests must fall into three categories: 1. Personnel Services (including completing training, creating materials, and interacting with community members); 2. Operating Expense and; 3. Equipment. Administrative costs are limited to five percent of the total Grant Subaward.
