CALIFORNIA STATE HAZARD MITIGATION PLAN

Volume 2

Gavin Newsom

Governor

Nancy Ward

Director

California Governor's
Office of Emergency Services

2023

Appendix D. Plan Participants

Cal OES
GOVERNOR'S OFFICE
OF EMERGENCY SERVICES

D. PLAN PARTICIPANTS

One of the major changes from the 2018 State Hazard Mitigation Plan (SHMP) planning process is how the California Governor's Office of Emergency Services (Cal OES) engaged partners and stakeholders. In 2018, the SHMP planning process engaged participants quarterly for overall Plan review and input. Additional working group meetings were held on an as-needed basis, such as for geographic information system (GIS) technical assistance or to develop the 2018 SHMP's social vulnerability methodology.

For the 2023 SHMP planning process, Cal OES used a Hazard and Working Group model. Group meetings were held either biweekly or monthly, and participants contributed substantive, organizational, and thematic input for the 2023 SHMP. The Groups included:

- Hazard Groups
 - Fire Hazards
 - Flood Hazards
 - Other Hazards
 - Seismic Hazards
- Working Groups
 - Climate Impacts
 - Equity
 - GIS Technical Assistance Working Committee (GIS-TAWC)
 - Goals and Objectives

In addition to these groups, Cal OES engaged with subsequent partners and stakeholders to review the draft 2023 SHMP. Although these stakeholders were not involved in the Hazard and Working Groups, they were included on the Cal OES distribution listserv to provide feedback during the SHMP planning process. Additional information on the Hazard and Working Groups is detailed in Section 1.2.1: Organizing the Process and Resources in the 2023 SHMP Volume 1.

Cal OES also engaged partners as part of the 2018 SHMP implementation and monitoring process through quarterly reports. These reports align with Enhanced Elements E6: Integrated Planning and E7: Mitigation Capabilities. Information from these reports is also incorporated into the 2023 SHMP, showing the ongoing and continually growing mitigation efforts statewide.
