FEMA

NOTICE: Update on FEMA GO Reopening

Following President Trump's signing of the continuing resolution to restore federal appropriations, the Federal Emergency Management Agency Grants Outcomes (FEMA GO) system has been reopened. Grant recipients may now access their awards in the system. For those who received an award for a fiscal year (FY) 2025 Non-Disaster Grant or FY 2024 Fire Grant but did not accept the award prior to the lapse in appropriations, FEMA is reissuing all award offers with a new deadline of December 31, 2025.

FEMA is actively working to process waivers, extension requests, amendments, and payment requests that were queued during the lapse in appropriations. Payment requests that do not require manual review will be processed immediately. For amendments or payment requests that require manual review and were submitted prior to the lapse in funding, your patience is appreciated as FEMA staff begin to address those requests.

Please wait to submit required reporting (Federal Financial Reports, Performance Progress Reports, etc.) that was due for submission on FEMA GO during the lapse in funding. FEMA will send recipients updated guidance on when and how to submit the reports.

For any questions regarding FEMA grant awards, please contact your programmatic point of contact or the FEMA GO Helpdesk at femago@fema.dhs.gov.

We appreciate your patience as we work through the backlog of requests following the lapse in appropriations.
