

FY 2008 NIMS Compliance Objectives and Metrics For States and Territories

FY 2008 (October 1, 2007—September 30, 2008) NIMS Compliance Objectives and Metrics For States and Territories

Introduction

Homeland Security Presidential Directive 5 (HSPD-5) *Management of Domestic Incidents* called for the establishment of a single, comprehensive national incident management system. As a result, the U.S. Department of Homeland Security released the National Incident Management System (NIMS) in March 2004. NIMS provides a systematic, proactive approach guiding departments and agencies at all levels of government, the private sector, and nongovernmental organizations to work seamlessly to prepare for, prevent, respond to, recover from, and mitigate the effects of incidents, regardless of cause, size, location, or complexity, in order to reduce the loss of life, property, and harm to the environment. This consistency provides the foundation for implementation of the NIMS for all incidents, ranging from daily occurrences to incidents requiring a coordinated Federal response. The NIMS document, as revised in 2007, reflects contributions from stakeholders and lessons learned during recent incidents.

States and territories play an important role in ensuring effective NIMS implementation; not only must they implement NIMS within State and territory Departments and Agencies, but also ensure that the systems and processes are in place to communicate and support NIMS compliance at all jurisdictional levels. In some instances, when tribal nations or local government may not have the resources to implement all NIMS elements on their own, States and territories should support their efforts by encouraging them to cooperate with other localities in their regions and pool their resources to implement NIMS.

The long-term goal of NIMS is to provide a consistent framework for all aspects of emergency management and incident response. This framework should be sustainable, flexible, and scalable to meet changing incident needs and allow for integration of other resources from various partners through mutual aid agreements and/or assistance agreements.

FYs 2005-2007 NIMS Compliance Objectives

On September 8, 2004, a letter to the Nation's Governors detailed the initial steps that States, territories, tribal nations and local governments needed to take to implement NIMS. The activities, now objectives, outlined in that letter provide the foundation for current NIMS compliance. Since that time, Incident FEMA's Incident Management Systems Integration (IMSI) Division (formerly NIMS Integration Center) continues to expand on this foundation and add additional objectives—each developed to enhance the way incidents are managed at all levels of government.

Prior to Fiscal Year (FY) 2007, IMSID required States and territories to self-certify their NIMS compliance. Beginning in FY 2007, NIMS compliance was determined by State, territory, Tribal Nation and local government responses to performance-based "metrics". IMSI developed these compliance metrics from previously-required implementation objectives specified in the *FY 2006 NIMS Implementation Matrix for States and Territories* and the *FY 2006 NIMS Implementation Matrix for Tribal Governments and Local Jurisdictions*. Additionally, the NIMS Compliance Assistance Support Tool (NIMSCAST) has been expanded to incorporate these metrics as well as provide stakeholders with a way to collect and report data relating to NIMS implementation and compliance. IMSI will analyze this data to help shape the future of its NIMS compliance program.

NIMS Compliance in FY 2008 and Beyond

As we move into FY 2008, State, territory, Tribal Nations, and local governments will address specific compliance objectives, which will outline necessary actions to be accomplished in FY 2008. As with FY 2007 implementation objectives, each objective will have corresponding compliance metrics that address expected achievements for FY 2008 and out years.

The FY 2008 NIMS compliance metrics will clearly outline year-end expectations, while out-year metrics will provide actions that can be implemented in FY 2008 or addressed in the future, as appropriate. The FY 2009 compliance objective and metrics will allow stakeholders to work within their current level of NIMS implementation and compliance and move ahead in implementation objectives.

In FY 2008, there are 40 NIMS compliance objectives. Twenty-six (26) of these objectives are pre-existing objectives with which States and territories must continue to comply.

Only one additional compliance objective under *Resource Management*, #23, is new to States and territories in this fiscal year. One objective under *Preparedness: Training* was previously issued in FY 2007 and is a compliance objective requiring State and territorial compliance by the end of FY 2009. IMSID identifies an additional 11 FY 2009 objectives for which States and Territories, Tribal Nation, and Local government can plan. Projected FY 2009 compliance objective include:

- Complete *ICS-400 Advanced ICS* training or equivalent by appropriate personnel (as identified in the Five-Year NIMS Training Plan, February 2008)
- Complete Emergency Management Framework Course—Awareness Training (as identified in the Five-Year NIMS Training Plan, February 2008)
- Include preparedness organizations and elected and appointed officials in the development of emergency operations plans (EOPs)
- Plan for special needs populations in the development of EOPs (to include, but not limited to, individuals with limited English language proficiency; individuals with disabilities; children; the aged, etc.)
- Promote and encourage delivery of NIMS training (as identified in the Five-Year NIMS Training Plan Schedule, December 2007)
- Include NGOs and the private sector in an all-hazards exercise program, when appropriate
- Promote the integration of Incident Command, Multiagency Coordination System, and Public Information into appropriate exercises and evaluate against associated target capabilities (refer to HSEEP Volume III and the Exercise Evaluation Guides)
- Institute procedures and protocols for operational and information security during an incident/planned event
- Institute multidisciplinary and/or multi-jurisdictional procedures and protocols for standardization of data collection and analysis to utilize or share information during an incident/planned event
- Develop procedures and protocols for communications (to include voice, data, access to geospatial information, Internet/Web use, and data encryption), where applicable, to utilize or share information during an incident/planned event
- Institute policies, plans, procedures and protocols to prevent spontaneous deployment of resources/personnel and/or responding to a request that bypassed official resource coordination processes (i.e., resources requested through improper channels)
- Institute mechanisms to deploy, track, recover, demobilize, and to provide reimbursement for resources utilized during response and recovery

- Utilize access control measures during an incident, as appropriate

Although released in FY 2008, States and territories, Tribal Nations, and local governments are not required to achieve these projected compliance objectives before the end of FY 2009. Additionally, these 12 compliance objectives may not represent the total number of compliance objectives designed with which States and territories will have to comply in FY 2009.

Below is a breakdown of the FY 2008 NIMS compliance objectives described above. It illustrates the number of NIMS compliance objectives required of States and Territories, Tribal Nations, and Local Governments:

Objectives	States and Territories	Tribal Nations	Local Governments
Required in FY 2008	26	25	24
New and Required in FY 2008	1	1	1
Required (Projected) in FY 2009	12	12	12
Total	39	38	37

Beginning on pages 10-13, States and Territories can see the compliance objectives that have been issued for FYs 2005-2008 and their respective metrics. Full compliance metrics are available on pages 14-32.

NIMS Compliance Metrics

NIMS ADOPTION

Compliance Objective 1: Adopt NIMS by all State/Territorial Departments/Agencies; as well as promote and encourage NIMS adoption by associations, utilities, nongovernmental organizations (NGOs) and private sector emergency management and incident response organizations.

- 1.1 Has the State/Territory formally adopted, for Fiscal Year (FY) 2008, the National Incident Management System as its all-hazards incident management system?

Yes No

What legal authority was used to formally adopt NIMS: [Check all that apply.]

- Executive Order
 Proclamation
 Resolution
 Other legal authority

When was NIMS formally adopted? []

- 1.2 Does the formal adoption of NIMS expire?

Yes No

When? []

Is there is a process for renewing/maintaining the formal adoption of NIMS?

Yes No

If yes, how? []

- 1.3 Does the State/Territory promote NIMS adoption by associations, utilities, private sector, and nongovernmental organizations?

Yes No

Compliance Objective 2: Establish and maintain a planning process to communicate, monitor and implement all NIMS requirements across the State/Territory/ Tribal Nation (including within Departments/Agencies), including local governments. This process must provide a means for measuring progress and facilitate reporting.

2.1 Has the State/Territory developed a planning process to communicate, monitor, and implement all NIMS compliance objectives to

State/Territorial Departments and Agencies? [] Yes [] No

Does that planning process:

Compliance Objective 3: Designate and maintain a single point of contact within government to serve as principle coordinator for NIMS implementation jurisdiction-wide (to include principal coordinator for NIMS implementation within each Department/Agency).

3.1 Has State/Territory designated a single point of contact within the State/Territorial government with the authority to serve as the principal coordinator for overall statewide/ territory-wide NIMS implementation?

Yes

No

Identify the individual. (Include: Name, Title, Email Address, Phone Number, and Mailing Address)

[]

Identify the date of designation:

[]

3.2 Have the appropriate State/Territory Departments/Agencies or those with emergency management and incident response responsibilities designated a single point of contact within each of the Departments/Agencies with the authority to serve as the principal coordinator for NIMS implementation?

Yes

No

Total number of State/Territorial Departments/Agencies?

[]

Total Number of State/Territorial Departments/Agencies that have designated a single point of contact?

Compliance Objective 4: Ensure that Federal Preparedness Awards [to include, but not limited to, DHS Homeland Security Grant Program and Urban Area Security Initiative Funds] to State/Territorial Departments/Agencies, as well as local governments, support all required NIMS compliance requirements.

4.1 Does the State/Territory ensure that Federal Preparedness Awards [including DHS Homeland Security Grant Program and Urban Area Security Initiative (UASI) Funds] support NIMS compliance?

Yes No N/A

Compliance Objective 5: Routinely include NIMS compliance objectives in all audits, conducted by State/Territorial audit agencies and review organizations, associated with Federal Preparedness Awards.

5.1 Do State/Territory audit agencies and review organizations include required NIMS compliance activities in all audits associated with Federal Preparedness Awards?

Yes No N/A

Compliance Objective 6: Assist Tribal Nations with formal adoption and implementation of NIMS.

6.1 Does the State/Territory assist Tribal Nation(s) with NIMS adoption?

Yes No N/A

6.2 Does the State/Territory assist Tribal Nation(s) with NIMS implementation?

Yes No N/A

PREPAREDNESS: PLANNING

Compliance Objective 7: Revise and update State/Territorial emergency operations plans (EOPs), standard operating procedures (SOPs), and standard operating guidelines (SOGs) to incorporate NIMS and National Response Framework (NRF) components, principles and policies, to include planning, training, response, exercises, equipment, evaluation, and corrective actions.

7.1 Does State/Territory review and revise the following plans to incorporate NIMS components, principles, and policies?

Table with 3 columns: Plan Type, Yes, No. Rows: EOPs, SOPs, SOGs.

7.2 Does State/Territory review and revise the following plans to incorporate NRF components, principles, and concepts?

Table with 3 columns: Plan Type, Yes, No. Rows: EOPs, SOPs, SOGs.

Compliance Objective 8: Promote and/or develop intrastate and interagency mutual aid agreements and assistance agreements (to include agreements with the private sector and NGOs).

8.1 Does State/Territory promote and/or develop intrastate mutual aid agreements and assistance agreements throughout the State/Territory?

[] Yes [] No

Do these include agreements with the private sector?

[] Yes [] No

Do these include agreements with NGOs?

[] Yes [] No

8.2 Does the State/Territory promote and/or develop interagency mutual aid agreements and assistance agreements throughout the State/Territory?

[] Yes [] No

Do these include agreements with the private sector?

[] Yes [] No

Do these include agreements with NGOs?

[] Yes [] No

PREPAREDNESS: TRAINING

Compliance Objective 9: Use existing State/Territorial resources such as programs, personnel and training facilities to coordinate and deliver NIMS training.

9.1 Does the State/Territory use the following resources for NIMS training?

	Yes	No

PREPAREDNESS: EXERCISES

Compliance Objective 15: Incorporate NIMS concepts and principles into all appropriate State/Territorial training and exercises.

15.1 Have the following NIMS concepts and principles been incorporated into all appropriate State/Territory training?

Table with 3 columns: Concept, Incorporated, Not Incorporated. Rows include Flexibility, Scalability, Standardization, Interoperability & Compatibility, Resource Management, Incident Command, Multiagency Coordination, and Public Information.

15.2 Have the following NIMS concepts and principles been incorporated into all appropriate State/Territory exercises?

Table with 3 columns: Concept, Incorporated, Not Incorporated. Rows include Flexibility, Scalability, Standardization, Interoperability & Compatibility, Resource Management, Incident Command, Multiagency Coordination, and Public Information.

Compliance Objective 16: Plan for and/or participate in an all-hazards exercise program [for example, Homeland Security Exercise and Evaluation Program] that involves emergency management/response personnel from multiple disciplines and/or multiple jurisdictions.

16.1 Does the State/Territory plan for an all-hazards exercise program?

[] Yes [] No

If yes, is the all-hazards exercise program multidisciplinary?

[] Yes [] No

If yes, is the all-hazards exercise program multi-jurisdictional?

[] Command and Management
[] Mutual Aid and Assistance
[] Interoperability
[] Participation of NGOs and Private Sector

16.3 In FY 2008, will the State/Territory participate in all-hazards:

Table with 4 columns: Exercise Type, Yes, No, N/A (not this year). Rows include Drills, Table-top Exercises, Functional Exercises, and Full-scale Exercises.

Compliance Objective 17: Incorporate corrective actions into State/Territorial preparedness and response plans and procedures.

17.1 After conducting and/or participating in an all-hazards exercise program, does State/Territory incorporate corrective actions into preparedness and response plans and procedures?

[] Yes [] No

COMMUNICATIONS AND INFORMATION MANAGEMENT

Compliance Objective 18: Apply common and consistent terminology as used in NIMS, including the establishment of plain language (clear text) communications standards.

18.1 Does the State/Territory apply the following communication standards:

	Yes	No
Plain Language (Clear Text)	[]	[]
Common and Consistent Terminology	[]	[]

Compliance Requirement 19: Utilize systems, tools, and processes to present consistent and accurate information (e.g., common operating picture) during an incident/planned event.

RESOURCE MANAGEMENT

Compliance Objective 20: Inventory State/Territorial response assets to conform to NIMS National Resource Typing Definitions, as defined by FEMA's Incident Management Systems Integration Division.

20.1 Has the State/Territory inventoried its emergency management/incident response assets to conform to NIMS National Resource Typing Definitions?

Yes

No

20.2 Has the State/Territory typed its response assets to conform to NIMS National Resource Typing Definitions?

Yes

No

20.3 Does the State/Territory have a process to determine availability of emergency management/incidents response assets in accordance with "Tier One" NIMS National Resource Typing Definitions?

Yes

No

Compliance Objective 21: Utilize State/Territorial response asset inventory for intrastate and interstate mutual aid requests [such as Emergency Management Assistance Compact (EMAC)], training, exercises, and incidents/planned events.

21.1 Does the State/Territory use the response asset inventory for:

	Yes	No

24.3 Does the State/Territory implement Incident Action Plans (IAPs) during incidents/planned events, as appropriate?

[] Yes

[] No

24.4 Does the State/Territory implement common communication plans during incidents/planned events, as appropriate?

[] Yes

[] No

Compliance Activity 25: Coordinate and support emergency management and incident response activities through the development and use of integrated Multiagency Coordination System (MACS) [i.e., develop and maintain connectivity between local Incident Command Posts (ICP), local 911 Centers, local Emergency Operations Centers (EOCs), the State/Territorial EOC, and Regional and Federal EOCs and NRF organizational elements].

25.1 Does the State/Territory use integrated MACS, where appropriate, during incidents/planned events?

Yes

No

Which of the following primary functions is coordinated by a State/Territory MACS: [Check all that apply.]

- Situation assessment
- Critical resource acquisition and allocation
- Other State/Territory, Tribal Nation, Local, and Federal MACS
- Coordination with elected and appointed officials
- Coordination of summary information
- Incident priority determination
- Other functions

Compliance Objective 26: Institutionalize, within the framework of ICS, Public Information, [e.g., Joint Information System (JIS) and a Joint Information Center (JIC)] during an incident/planned event.

26.1 Do State/Territory emergency plans, within the framework of ICS, include processes and procedures for Public Information during incidents/planned events as appropriate?

Yes

No

Can Public Information establish a JIS during incidents/planned events, as appropriate?

Yes

No

Can Public Information establish a JIC during incidents/planned events, as appropriate?

Yes

No

Can Public Information identify individuals to serve as Public Information Officers (PIOs) during an incident/planned event, as appropriate?

Yes

No

Compliance Objective 27: Ensure that State/Territorial Public Information procedures and processes can gather, verify, coordinate, and disseminate information during an incident/planned event.

27.1 During an incident/planned event can the State/Territory Public Information system:

	Yes	No
Gather information	[]	[]
Verify information	[]	[]
Coordinate information	[]	[]

Command and Management	
Incident Command System (ICS): Manage all incidents/ planned events in accordance with ICS organizational structures, doctrine and procedures. ICS implementation must include the consistent application of Incident Action Planning (IAP), common communications plans, implementation of Area Command to oversee multiple incidents that are handled by separate ICS organizations or to oversee the management of a very large or evolving incident that has multiple incident management teams engaged, and implementation of unified command (UC) in multi-jurisdictional or multiagency incident management, as appropriate.	* NIMS Document
Multi-agency Coordination System (MACS): Coordinate and support emergency management and incident response Objectives through the development and use of integrated multi-agency coordination systems, i.e. - develop and maintain connectivity capability between local Incident Command Posts (ICP), local 911 Centers, local Emergency Operations Centers (EOCs), the State/Territorial EOC and Regional and/Federal EOCs and NRF organizational elements.	* NIMS Document * NRF Document (p. 46) (informational)

Best Practices:

In addition to the compliance requirements stemming from doctrines and guidance documents related to NIMS, there are several other recommended actions to assist stakeholders in effectively implementing NIMS. Using the outlined methodologies and actions is strongly suggested. These methodologies are based on the sharing of best practices and provide suggestions for ways in which stakeholders can carry out these critical aspects of implementation.
