- Must have FEMA-approved Local Hazard Mitigation Plan (LHMP)
- Cost-Effective shown by Benefit Cost Analysis (BCA)
- 75% Federal / 25% Non-Federal Cost Share (90%/10% in some cases)
- 36 months Period of Performance
- Funding for: LHMP Development, Project Scoping/Advance Assistance, Project Implementation/Construction
- Projects to address natural hazards: Fire, Flood, Earthquake, Landslide/Mudslide, Tsunami, Drought, Volcano
- Grant management and pre-award costs are eligible for reimbursement

Hazard Mitigation Programs

HMGP

Available after a major disaster declaration to reduce risks from natural hazards

FMA

Reduces or eliminates risk of repetitive flood damage to buildings and structures insured under NFIP

HMGP Post-Fire

Prioritizes communities impacted by wildfire to mitigate fire and post-fire hazards

BRIC

Annual, nationally competitive funding for new and innovative infrastructure projects that reduce risks from natural hazards

Flood Mitigation Project Examples

- Floodproofing
- Flood diversion and storage
- Culvert upsizing
- Floodplain and stream restoration
- Elevations and acquisitions
- Drainage improvements
- Detention/Retention basins
