[Recovery & Resilience Resource Library](#)

- FEMA developed the Recovery and Resilience Resource Library in collaboration with our federal interagency partners to navigate the numerous programs available to the United States and its territories to help recover from a disaster
- The resources are intended for state, local, territorial, and tribal (SLTT) governments, as well as nonprofits, businesses, healthcare institutions, schools, individuals, and households. The tool helps users to find and research federal disaster recovery resources that would be beneficial in pre-disaster recovery planning or in the wake of a disaster

[Planning Guides | FEMA.gov](#)

- Accomplished properly, planning provides a methodical way to engage the whole community in thinking through the lifecycle of a potential crisis, determining required capabilities and establishing a framework for roles and responsibilities. It shapes how a community envisions and shares a desired outcome, selects effective ways to achieve it and communicates expected results
- A shared planning community increases the likelihood of integration and synchronization, makes planning cycles more efficient and effective and makes plan maintenance easier
