

Oil and Chemical Spills

FUNDING AND RESOURCES

Funding Opportunities

California Department of Fish and Wildlife:

- **Oil Spill Response Equipment Grant Program** awards grants to any local government entity for pre-position response equipment to protect economic and environmental resources in the event of an oil spill.
- **California Native American Preparedness Grant Program** provides funding to Native American tribes for Hazardous Waste Operations and Emergency Response training, participation in oil spill exercises, attendance at oil spill-related meetings, and involvement in outreach events.

UC Davis School of Veterinary Medicine:

- **Oiled Wildlife Care Network (OWCN)** offers two competitive grant programs: Pre-proposal for full research projects, and the Small Grant Proposal for pilot or smaller research projects. The goal is to fund projects related to improving animal capture and care methods and technologies, and assessing wildlife health and welfare to inform prevention, capture, care, and release of oiled wildlife.

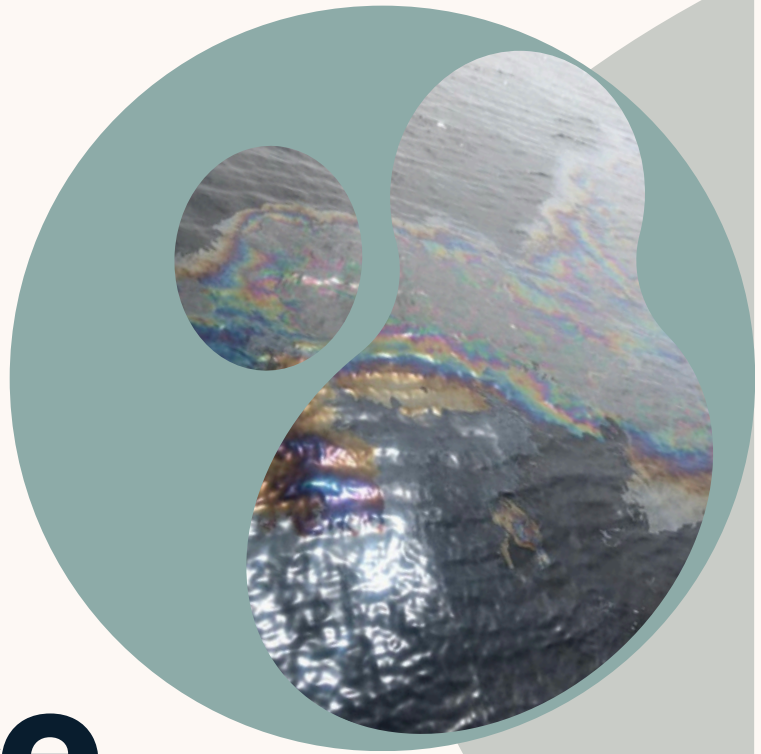

NCR RSF MISSION

The mission of the Natural and Cultural Resources RSF with Cal OES is to integrate subject matter experts, assets, and capabilities to support local and tribal governments and communities to address natural and cultural resource recovery and mitigate unavoidable adverse effects. For questions, please email LongTermRecovery@caloes.ca.gov

Technical Assistance

National Oceanic and Atmospheric Administration (NOAA) Office of Response and Restoration (ORR) provides support and links to robust modeling and response tools, research and reports, planning aids, as well as participating in clean up and recovery after spills at the request of incident command.

CDFW's Office of Spill Prevention and Response (OSPR) mission is to provide best achievable protection of California's natural resources by ensuring key players in the oil supply chain have properly planned for, exercised, and identified response resources and have demonstrated the financial ability to pay for oil spills.

The **Oil Spill Task Force** is an organization of representatives from state and provincial environmental agencies in the Pacific coastal area working to deepen partnerships to prevent, prepare for, respond to, and recover from oil spills.

The **Oiled Wildlife Care Network (OWCN)** is a statewide collective of trained wildlife care providers, regulatory agencies, academic institutions, and wildlife organizations working to rescue and rehabilitate oiled wildlife in California.
